Lab 3 — Supercomputer skill template

A skill is rules and guidelines for one job. Higgsfield calls Skills installable workflows: install them from the Marketplace, import them from Claude, Claude Code, Codex or ChatGPT, or write your own. Run one by typing / in Supercomputer.

Part	What to write	Example: /house-standards
Name	short, lower-case, hyphenated	house-standards
When to use	the job it does and when	Every video we make for clients
Rules	the non-negotiables	Saved Elements only; Draft before 1080p; AI label on; written consent for real faces/voices; cleared music
Steps	the order of work	Brief → three-part prompt → Draft → review → finalise → checklist → export 16:9 + 9:16
Output format	what it must hand back	Three-part prompt + credit estimate + pass/fail checklist

Your skill

1. _____
2. _____
3. _____
4. _____
5. _____
