COURSE ADMINISTRATION

Welcome & Housekeeping

© 2026 Tertiary Infotech Academy Pte Ltd

Digital Attendance (Mandatory)

- It is mandatory to take the AM, PM and Assessment digital attendance for WSQ-funded courses.
- The trainer/administrator displays the digital attendance QR code from the SSG portal.
- Scan the QR code with your mobile phone camera and submit your attendance.
- A minimum of 75% attendance is required to be eligible for assessment and funding.

© 2026 Tertiary Infotech Academy Pte Ltd

About the Trainer

YOUR TRAINER

About the Trainer

Dr Alfred Ang

Principal Trainer
Tertiary Infotech Academy Pte Ltd

ROLE
Principal Trainer and Founder, Tertiary Infotech Academy Pte Ltd

EXPERTISE
Generative AI, AI video production, data science and machine learning.

DELIVERS
WSQ courses on GenAI content creation, AI video, prompt engineering and analytics.

BACKGROUND
PhD; 15+ years training professionals across AI, engineering and digital media.

© 2026 Tertiary Infotech Academy Pte Ltd

ICE-BREAKER

Let's Know Each Other

- Your name and organisation / role.
- Your experience with video creation or editing (if any).
- What videos do you want to create after this course — marketing, training, social media?

© 2026 Tertiary Infotech Academy Pte Ltd

HOUSEKEEPING

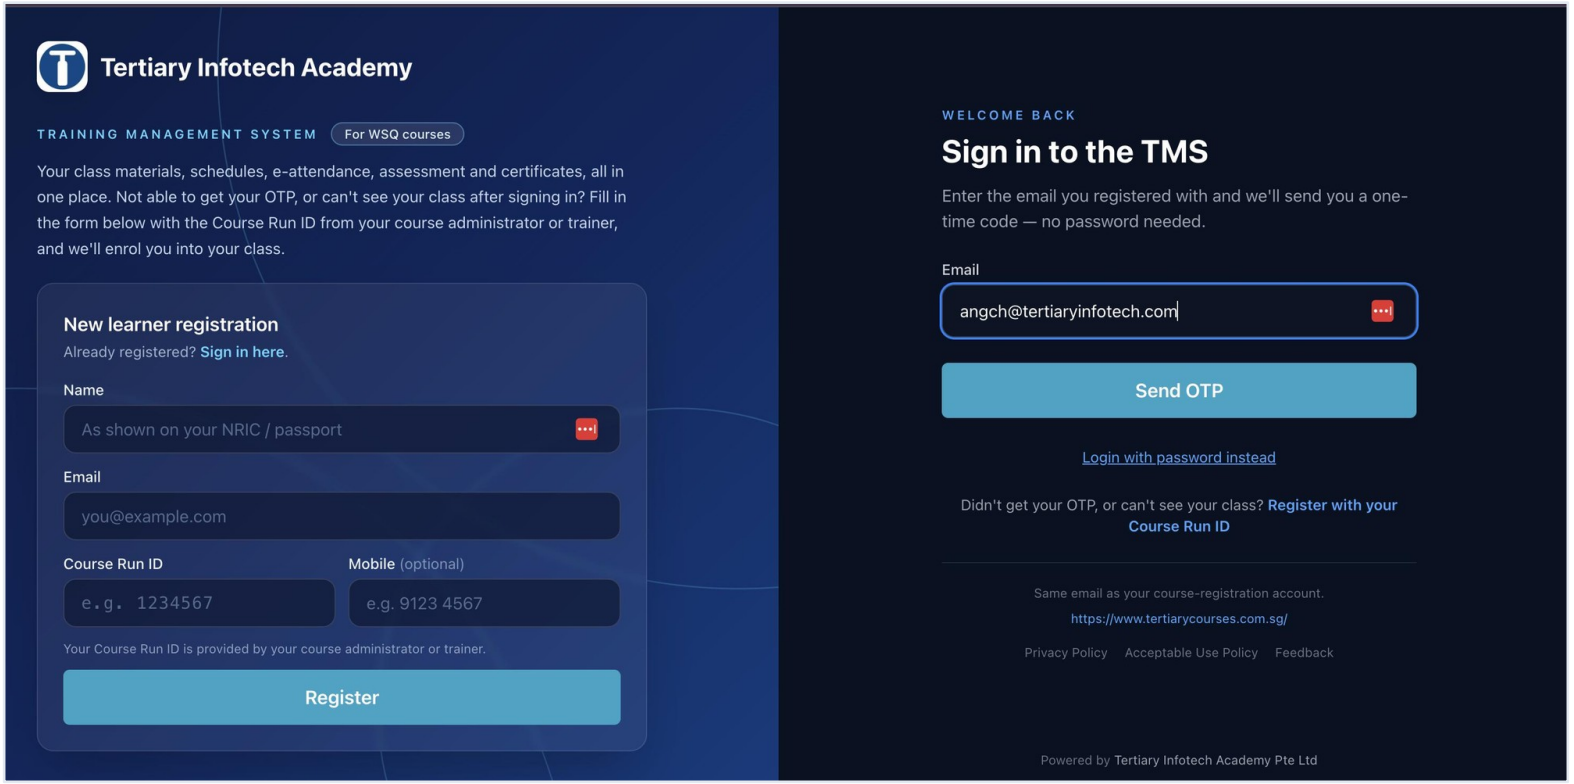

Ground Rules

1. Set your mobile phone to silent mode.
2. Participate actively — no question is too small.
3. Respect each other's views.
4. One conversation at a time.
5. Exit quietly for calls or breaks.
6. Be punctual; 75% attendance is required.

© 2026 Tertiary Infotech Academy Pte Ltd

COURSE PORTAL

Login to LMS and Download Course Material

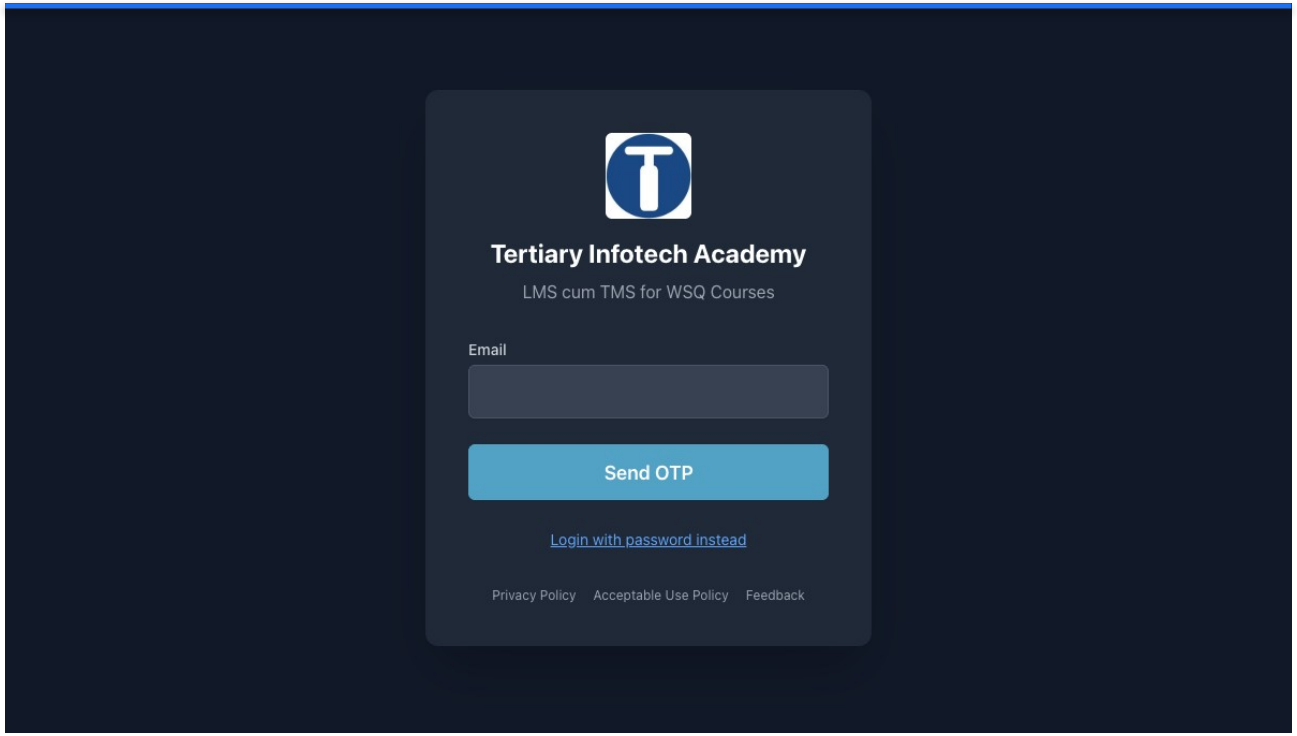

Log in at lms-tms.tertiaryinfotech.com with your registered email and the OTP sent to your inbox, then open this course to download the slides and Learner Guide.

https://lms-tms.tertiaryinfotech.com

© 2026 Tertiary Infotech Academy Pte Ltd

LMS / TMS COURSE PORTAL

Download Course Material

1. Go to lms-tms.tertiaryinfotech.com and sign in with your registered email.
2. Open My Courses and select this course.
3. Download the Trainer Slides, Learner Guide and Lesson Plan PDFs.
4. Keep them handy — the final assessment is open book.

https://lms-tms.tertiaryinfotech.com

© 2026 Tertiary Infotech Academy Pte Ltd

SCHEDULE

Lesson Plan — 2 Days, 8 hours/day

Day 1

- Day 1 — AI Scripts, Text-to-Video & Editing Essentials

– Digital attendance (AM) · introductions

– Topic 1: Create & Edit Video Script Using GenAI (Labs 1–4)

– Topic 2 begins: Improve Video Footage on VEED (Labs 5–6)

– Digital attendance (PM) · Day 1 recap

Day 2

- Day 2 — Audio, Avatars, Music, Publishing & Assessment

– Digital attendance (AM) · recap

– Topic 2: Audio & quality mini project (Labs 7–8)

– Topic 3: Avatars, music, cloning, agentic publishing (Labs 9–12)

– Revision · TRAQOM survey · Assessment attendance

– Final Assessment: WA (1 h) + PP (1 h)

© 2026 Tertiary Infotech Academy Pte Ltd

Skills Framework

Knowledge (assessed in the WA)

- TSC: Video Editing · MED-MPN-4005-1.1
  - K1: Types of quality issues in video content
  - K2: Types of solutions to rectify quality issues
  - K3: Parameters to assess video quality
  - K4: Industry quality standards
  - K5: Technologies that improve efficiency and quality of video edits

Abilities (assessed in the PP)

- Abilities
  - A1: Review scripts to conceptualize the types of edits required to achieve creative vision of production
  - A2: Develop editing standards and guidelines in accordance to legal requirements and broadcasting standards
  - A3: Develop work plans to outline the processes and timelines needed for the post production processes
  - A4: Review edited footage to determine areas of improvement to enhance storytelling
  - Plus A5–A7 (assessed in the PP)

© 2026 Tertiary Infotech Academy Pte Ltd

WHAT YOU'LL ACHIEVE

Learning Outcomes

1

LO1 — Plan

Develop video editing strategies and work plans to achieve creative video.

2

LO2 — Assess

Assess edited video footage to enhance storytelling and ensure technical compliance.

3

LO3 — Improve

Develop remedial actions for compliance and adopt new technologies in video editing.

© 2026 Tertiary Infotech Academy Pte Ltd

THREE TOPICS · TWELVE HANDS-ON LABS

Course Outline

1

Topic 1 — AI Scripts & Text-to-Video

RICCE prompts, story structure, script templates, VEED AI Video Maker, standards & work plans. (Labs 1–4)

2

Topic 2 — Improve Footage on VEED

Editing essentials, subtitles & captions, AI voiceover & clean audio, quality assessment. (Labs 5–8)

3

Topic 3 — New AI Technologies

AI avatars & images, AI music, voice cloning & dubbing, agentic publishing to YouTube/TikTok. (Labs 9–12)

© 2026 Tertiary Infotech Academy Pte Ltd

ASSESSMENT RULES

Briefing for Assessment

1. Place phones and other materials under the table or on the floor.
2. No photos or recording of assessment scripts.
3. No discussion during the assessment.
4. Use a black/blue pen for hard-copy assessments.
5. No liquid paper / correction tape.
6. Scripts are collected when time is up.

© 2026 Tertiary Infotech Academy Pte Ltd

FINAL ASSESSMENT

Assessment

- Written Assessment (WA) — Short-Answer Questions (SAQ), 1 hour, open book.
- Practical Performance (PP) — hands-on video-production tasks, 1 hour, open book.
- Format: Open Book — slides, Learner Guide and approved materials only.
- A minimum of 75% attendance is required to be eligible for assessment and funding.
- An appeal process is available if required.

© 2026 Tertiary Infotech Academy Pte Ltd

ON ASSESSMENT DAY

Assessment Flow

1. TRAQOM survey — scan the QR code on the LMS
2. Assessment digital attendance — scan the SSG QR
3. Sit WA (SAQ) then PP — open book
4. Submit your answers on the LMS
5. Sign the Assessment Summary Record

© 2026 Tertiary Infotech Academy Pte Ltd

WSQ FUNDING

Criteria for Funding

1

75% attendance

Minimum attendance rate of 75% based on the SSG Digital Attendance record.

2

Assessed Competent

Complete the assessment and be assessed as 'Competent'.

© 2026 Tertiary Infotech Academy Pte Ltd

THE BIG PICTURE

How Generative AI Creates Video

© 2026 Tertiary Infotech Academy Pte Ltd

WHY THIS COURSE

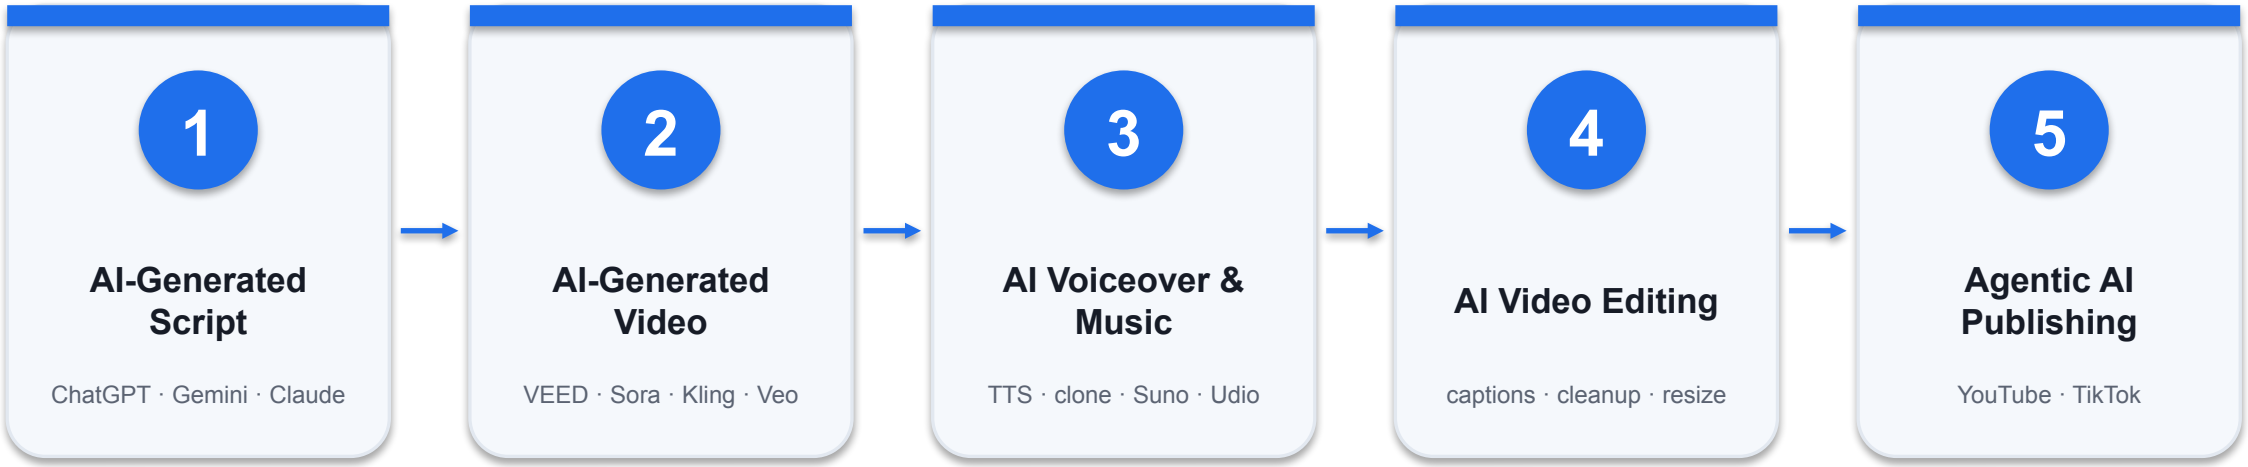

An entire video production studio, in your browser.

Script, footage, voice, music, editing and publishing — every stage of video production now has a GenAI tool. McKinsey estimates generative AI adds trillions in economic value; content creation is one of its biggest use cases.

© 2026 Tertiary Infotech Academy Pte Ltd

THE PROCESS FLOW YOU'LL MASTER — EVERY LAB MAPS TO A STAGE

The GenAI Video Creation Pipeline

ONE PIPELINE, FIVE AI STAGES

You'll write scripts with GenAI (Topic 1), generate and edit the video with AI tools (Topics 1–2), add AI voice and music (Topics 2–3), and let an agentic AI push the finished video to YouTube and TikTok (Topic 3).

© 2026 Tertiary Infotech Academy Pte Ltd

TOOL LANDSCAPE 2026

The GenAI Toolbox by Pipeline Stage

1

1 · Script

ChatGPT, Gemini, Claude, Copilot, custom GPTs — ideas, storylines, dialogue, formats.

2

2 · Video

VEED AI Video Maker, Sora, Veo, Kling, Hailuo, Pika, Runway, CapCut — text/image to video.

3

3 · Voice & music

VEED TTS, ElevenLabs, Play.ht (voice) · Suno, Udio, AIVA (music).

4

4 · Editing

VEED editor — subtitles, clean audio, background removal, resize, translate, eye contact.

5

5 · Publishing

Agentic AI + YouTube Studio, TikTok — metadata, thumbnails, scheduling, automation.

6

Cross-stage

Prompt engineering (RICCE) drives quality at every stage of the pipeline.

© 2026 Tertiary Infotech Academy Pte Ltd

STATE OF THE ART · 2026

AI Video Generation Models

Model	Made by	Strength	Access
Sora 2	OpenAI	Cinematic realism, physics, long shots	ChatGPT / VEED
Veo 3.1	Google	Native audio + dialogue in generation	Gemini / VEED
Kling	Kuaishou	Motion quality, character consistency	Kling / VEED
Hailuo	MiniMax	Fast, expressive short clips	Hailuo / VEED
Fabric 1.0	HeyGen	Talking avatars from one photo	HeyGen / VEED

WHY IT MATTERS VEED aggregates multiple models behind one editor — you pick per shot, so one platform covers the whole pipeline.

© 2026 Tertiary Infotech Academy Pte Ltd

VEED.IO · AI VIDEO MAKER WORKFLOW

How VEED Builds a Video from Text

1. **Describe** — type your idea or script
2. **AI drafts scenes** — storyboard + footage
3. **Customize** — avatar, voice, captions
4. **Refine in editor** — swap scenes, fix audio
5. **Export & share** — 1080p, any ratio

NO FILMING, NO STUDIO

From a text prompt to a finished, voiced, captioned video in minutes — you stay in control at every stage.

© 2026 Tertiary Infotech Academy Pte Ltd

01

TOPIC 01

Create and Edit Video Script Using Generative AI (GenAI)

AI script generation · prompt engineering · text-to-video · standards, guidelines & work plans

© 2026 Tertiary Infotech Academy Pte Ltd

COVERS K1 · A1 · A2 · A3

Key Concepts — Topic 1

1

Script writing with GenAI

Generate ideas, storylines, dialogue and complete video scripts from a prompt.

2

The RICCE prompt framework

Role, Instructions, Context, Constraints, Example — engineer prompts that produce broadcast-ready scripts.

3

Story structure

Hero, desire, obstacle, action, outcome — the elements every engaging video script needs.

4

AI text-to-video

Turn a script into a complete video with VEED's AI Video Maker — scenes, voiceover, captions and music in one pass.

5

Standards & guidelines

Editing standards aligned to legal requirements (copyright, PDPA) and platform/broadcast specs.

6

Work plans & timelines

Plan the production and post-production pipeline with GenAI-drafted work plans.

© 2026 Tertiary Infotech Academy Pte Ltd

SCRIPT DEVELOPMENT

What Makes a Script Work

1

Understand the brief

Decode the client's goal, audience and message before writing a word.

2

Research the topic

Primary and secondary sources, expert interviews, competitor videos.

3

Develop the narrative

A storyline that carries the message — not a list of features.

4

Platform fit

A TV ad, a YouTube explainer and a TikTok hook are different scripts.

© 2026 Tertiary Infotech Academy Pte Ltd

STORYTELLING

Good Story Elements

1

Identifiable hero

A protagonist the audience recognises themselves in.

2

A clear desire

What does the hero want? Ambiguity kills engagement.

3

A real obstacle

No obstacle, no story — conflict is the heart of drama.

4

Action & outcome

The hero acts; the world changes. Show the transformation.

5

Resolution

End the story world in a new, better state — with your CTA.

6

The story spine

Once upon a time… then one day… but… so… until finally…

© 2026 Tertiary Infotech Academy Pte Ltd

ONE SCRIPT ≠ EVERY PLATFORM

Tailoring Scripts to the Platform

	YouTube	TikTok / Shorts	Instagram Reels
Length	60 s – 10 min	15 – 60 s	15 – 90 s
Ratio	16:9 landscape	9:16 vertical	9:16 vertical
Pacing	Build with structure	Hook in 1–3 s, fast cuts	Aesthetic-first, fast
Captions	Recommended	Essential (muted viewing)	Essential
Style	Explainer / narrative	Trend-led, punchy	Polished, visual

WHY IT MATTERS Ask the AI to re-cut the same story per platform — Lab 1 does exactly this.

© 2026 Tertiary Infotech Academy Pte Ltd

PROMPT ENGINEERING FOR SCRIPTS

The RICCE Prompt Framework

QUALITY IN, QUALITY OUT

The RICCE structure turns a vague ask into a production-ready script brief — it is the single biggest lever on GenAI output quality.

© 2026 Tertiary Infotech Academy Pte Ltd

Common Script Pitfalls (and the AI fix)

1

Vague hero

Ask the AI to give the protagonist a name, job and one burning goal.

2

No clear desire

Prompt: 'State what the hero wants in one sentence — rewrite the opening around it.'

3

No obstacle = boring

Prompt the AI to inject a concrete obstacle and raise the stakes.

4

No resolution = puzzling

Ask for an ending that resolves the conflict and lands the CTA.

© 2026 Tertiary Infotech Academy Pte Ltd

WHAT YOU'LL DO

Hands-On Labs — Topic 1

1

Lab 1 — Generate a Video Script with the RICCE Framework

A polished 60–90 second video script with scene directions, dialogue and a hook, ready for production.

2

Lab 2 — Build Story-Driven Scripts with Prompt Templates & Custom GPTs

A story-driven video script built beat-by-beat, plus a second version from a custom GPT for comparison.

3

Lab 3 — AI Text-to-Video with VEED

A complete AI-generated 30–60 s video with scenes, AI voiceover, captions and background music.

4

Lab 4 — Develop Video Standards, Guidelines & a Production Work Plan

A one-page editing standards & guidelines document and a phased post-production work plan with timelines.

© 2026 Tertiary Infotech Academy Pte Ltd

TOPIC 01 · HANDS-ON

Generate a Video Script with the RICCE Framework

LAB 1

MAPS TO A1 — review scripts and conceptualise the edits needed to achieve the creative vision

Use the RICCE prompt framework (Role, Instructions, Context, Constraints, Example) with a text GenAI tool — ChatGPT, Gemini, Claude or Copilot — to generate a complete, engaging video script, then review and refine it for the target platform.

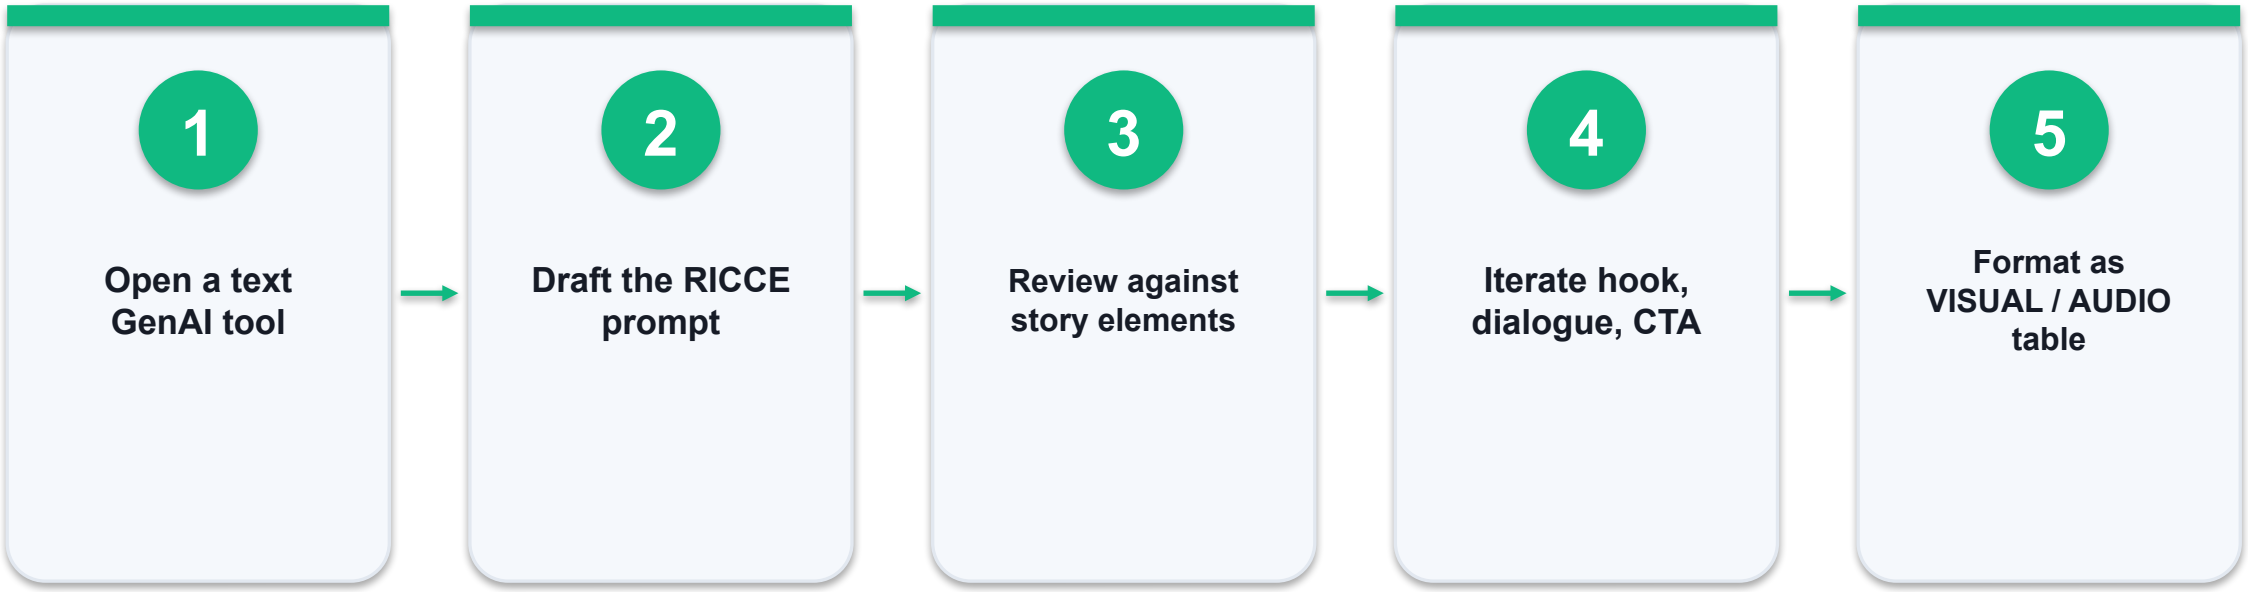

You'll build

A polished 60–90 second video script with scene directions, dialogue and a hook, ready for production.

Tools: ChatGPT, Gemini, Claude, Copilot

© 2026 Tertiary Infotech Academy Pte Ltd

How Lab 1 Runs

© 2026 Tertiary Infotech Academy Pte Ltd

Lab 1 — Prompts (1/2)

PROMPT — RICCE — FULL SCRIPT PROMPT

ROLE: You are an award-winning video scriptwriter for social media marketing.
INSTRUCTIONS: Write a 60-second promotional video script for an online learning platform.
CONTEXT: The audience is working adults in Singapore aged 25–45 considering upskilling; the video runs on YouTube and Instagram.
CONSTRAINTS: Max 150 words of voiceover. Hook in the first 3 seconds. Conversational tone. End with the call-to-action 'Start learning today'.
EXAMPLE: Format as a table with columns SCENE, VISUAL, VOICEOVER, ON-SCREEN TEXT.

PROMPT — REFINE THE HOOK

Rewrite the first scene so the opening 3 seconds create curiosity — start with a surprising question or statistic about career growth.

© 2026 Tertiary Infotech Academy Pte Ltd

Lab 1 — Prompts (2/2)

PROMPT — PLATFORM RE-CUT

Adapt this script into a 30-second vertical TikTok version: faster pacing, punchier lines, captions-first, keep the same call-to-action.

© 2026 Tertiary Infotech Academy Pte Ltd

LAB 1 · VERIFY

Generate a Video Script with the RICCE Framework

✅ Check your work

The script has a hook in the first 3 seconds, a clear hero/desire/obstacle/resolution arc, fits the 60–90 s duration, and is formatted in the two-column VISUAL/AUDIO layout.

Detailed step-by-step instructions: Learner Guide + the lab folder in labs/.

© 2026 Tertiary Infotech Academy Pte Ltd

TOPIC 01 · HANDS-ON

Build Story-Driven Scripts with Prompt Templates & Custom GPTs

LAB 2

MAPS TO A1 — conceptualise script edits; K1 — recognise script-level quality issues

Use the six-step story prompt template (genre → protagonist → antagonist → conflict → setting → plot beats) to co-write a story-driven script step by step, then compare the result with a purpose-built custom GPT script writer.

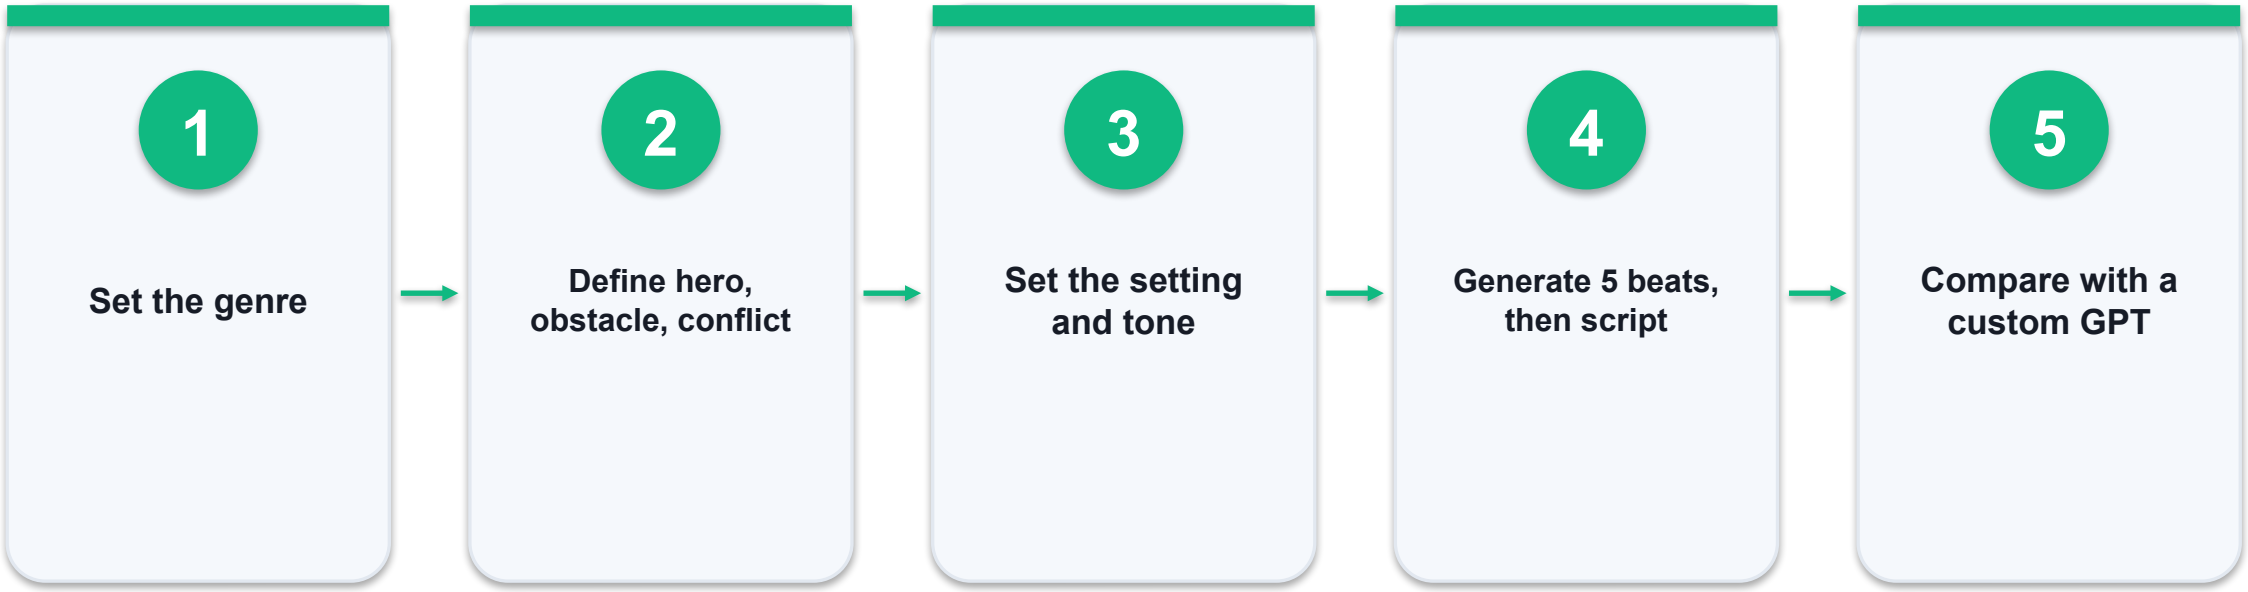

You'll build

A story-driven video script built beat-by-beat, plus a second version from a custom GPT for comparison.

Tools: ChatGPT (custom GPTs), Gemini, Claude

© 2026 Tertiary Infotech Academy Pte Ltd

How Lab 2 Runs

© 2026 Tertiary Infotech Academy Pte Ltd

Lab 2 — Prompts (1/2)

PROMPT — SIX-STEP TEMPLATE (STEPS 1–5 COMBINED)

We are co-writing a video story script.
GENRE: heartwarming brand story.
PROTAGONIST: Sarah, 32, a nurse who dreams of switching into tech but has no time to study.
OBSTACLE: 12-hour shifts and self-doubt.
CONFLICT: every course she tries demands rigid schedules she cannot keep.
SETTING: present-day Singapore, hopeful and warm tone.

PROMPT — PLOT BEATS

Generate five plot points that escalate Sarah's conflict to a climax and resolve it when she discovers a flexible online academy. Then expand the five beats into a 90-second script in VISUAL/AUDIO table format.

© 2026 Tertiary Infotech Academy Pte Ltd

Lab 2 — Prompts (2/2)

PROMPT — CRITIQUE PROMPT

```
Act as a script editor. Critique this script for: weak hook, unclear protagonist desire, missing obstacle, flat resolution. List each issue and rewrite the weakest scene.
```

© 2026 Tertiary Infotech Academy Pte Ltd

LAB 2 · VERIFY

Build Story-Driven Scripts with Prompt Templates & Custom GPTs

✅ Check your work

You can show both script versions, name at least three script-level quality issues you identified, and explain which version you chose for production and why.

Detailed step-by-step instructions: Learner Guide + the lab folder in labs/.

© 2026 Tertiary Infotech Academy Pte Ltd

TOPIC 01 · HANDS-ON

AI Text-to-Video with VEED

LAB 3

MAPS TO A1, A7 — turn a script into a video with an AI video generator

Turn your Lab 1 script into a complete video with VEED's AI Video Maker: describe the video, let AI generate the scenes, voiceover, captions and music, then customise it in the editor. VEED's generator taps models such as Veo, Sora, Kling and Hailuo for the visuals.

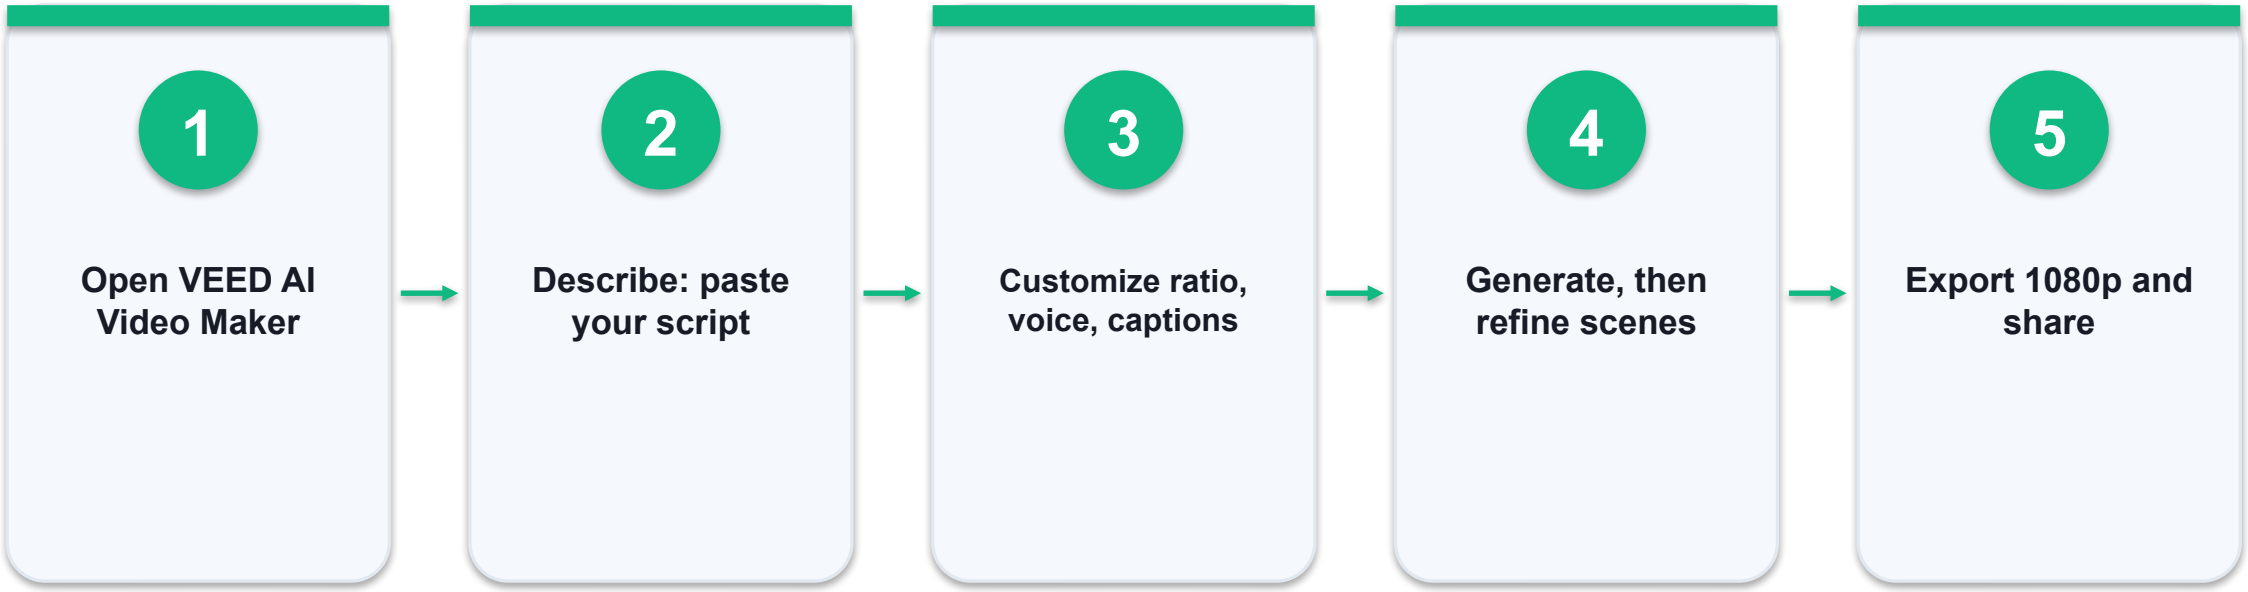

You'll build

A complete AI-generated 30–60 s video with scenes, AI voiceover, captions and background music.

Tools: VEED AI Video Maker (veed.io/tools/ai-video), ChatGPT

© 2026 Tertiary Infotech Academy Pte Ltd

How Lab 3 Runs

© 2026 Tertiary Infotech Academy Pte Ltd

Lab 3 — Prompts

PROMPT — TEXT-TO-VIDEO DESCRIPTION

Create a 45-second upbeat promotional video for an online learning platform. Modern, bright visuals of working adults learning on laptops and phones; energetic female voiceover; bold captions; end on the text 'Start learning today'.

PROMPT — SCENE SWAP

Generate a 5-second b-roll clip: close-up of hands typing on a laptop in a cosy café, warm morning light, shallow depth of field.

© 2026 Tertiary Infotech Academy Pte Ltd

LAB 3 · VERIFY

AI Text-to-Video with VEED

✅ Check your work

The exported video plays end-to-end with synchronised voiceover, captions and music, in the correct aspect ratio for the chosen platform.

Detailed step-by-step instructions: Learner Guide + the lab folder in labs/.

© 2026 Tertiary Infotech Academy Pte Ltd

TOPIC 01 · HANDS-ON

Develop Video Standards, Guidelines & a Production Work Plan

LAB 4

MAPS TO A2, A3 — develop editing standards/guidelines and post-production work plans

Use GenAI to draft the two documents every production needs: (1) an editing standards & guidelines sheet aligned to legal requirements (copyright, PDPA, platform rules) and broadcast standards, and (2) a work plan with timelines for the post-production process.

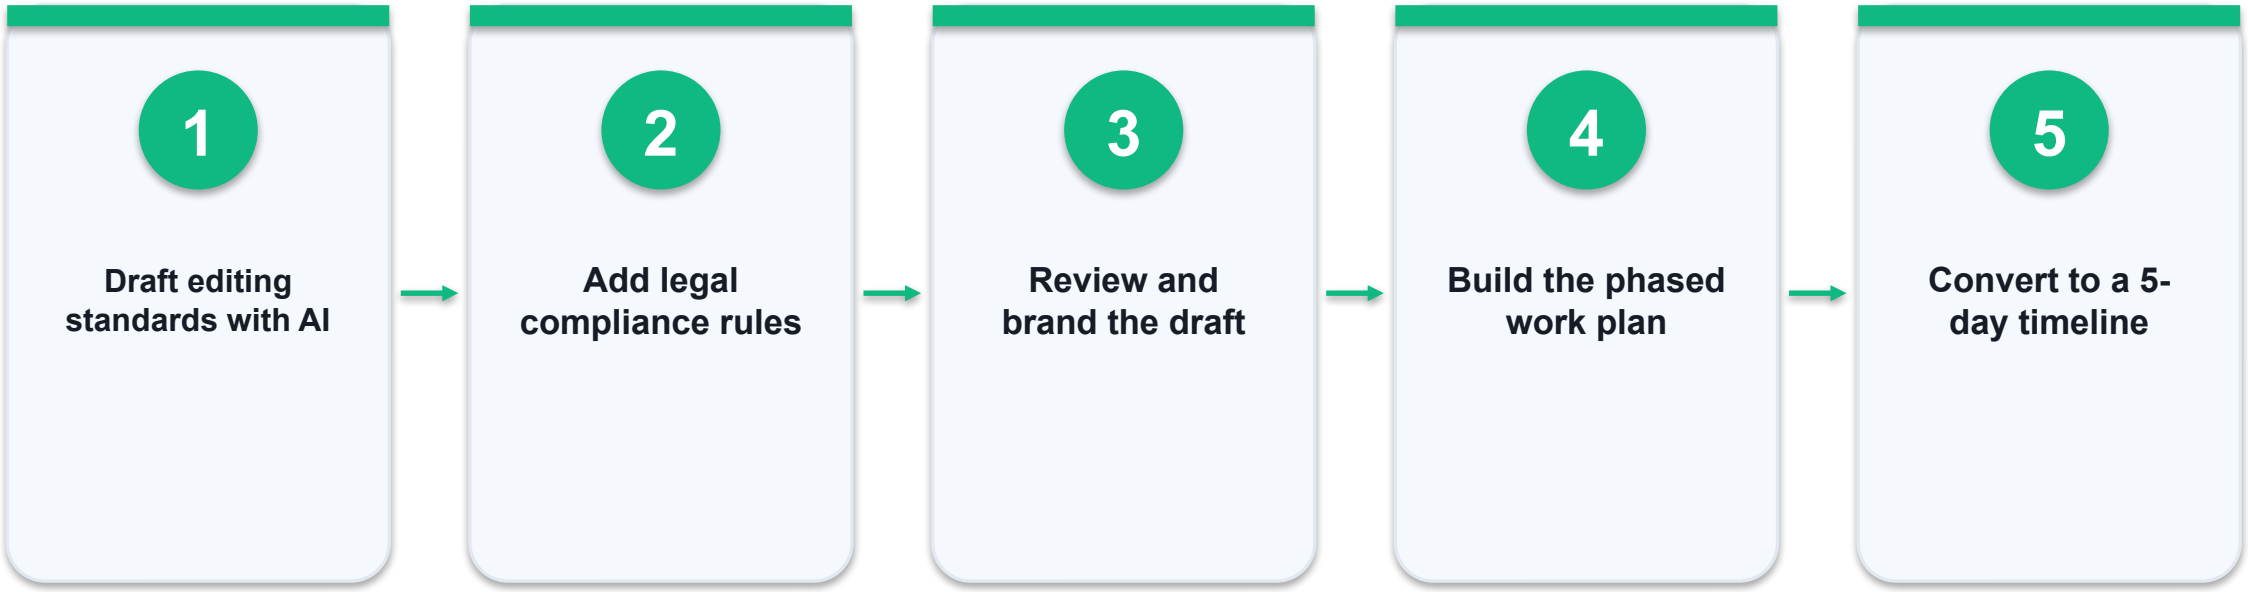

You'll build

A one-page editing standards & guidelines document and a phased post-production work plan with timelines.

Tools: ChatGPT, Gemini, Claude

© 2026 Tertiary Infotech Academy Pte Ltd

How Lab 4 Runs

© 2026 Tertiary Infotech Academy Pte Ltd

Lab 4 — Prompts

PROMPT — EDITING STANDARDS

Draft a one-page video editing standards & guidelines sheet for a Singapore digital media agency producing social videos. Cover: technical specs (resolution, frame rate, aspect ratio per platform), caption and subtitle style, audio loudness targets, brand usage, and legal compliance (music/footage licensing, PDPA consent, platform rules). Format as a table.

PROMPT — WORK PLAN

Create a post-production work plan for a 60-second promo video due in 5 working days. Phases: script lock, AI asset generation, editing, internal review, client review, final export, publishing. For each phase give owner, duration, dependencies and deliverable. Format as a timeline table.

© 2026 Tertiary Infotech Academy Pte Ltd

LAB 4 · VERIFY

Develop Video Standards, Guidelines & a Production Work Plan

✅ Check your work

The standards sheet names concrete technical specs and at least three legal/compliance rules; the work plan covers every phase to publishing with durations that sum to the 5-day deadline.

Detailed step-by-step instructions: Learner Guide + the lab folder in labs/.

© 2026 Tertiary Infotech Academy Pte Ltd

TOPIC RECAP

Recap — Create and Edit Video Script Using Generative AI (GenAI)

- You can now: A1 — review scripts and conceptualise the edits needed to achieve the creative vision
- You can now: A1 — conceptualise script edits; K1 — recognise script-level quality issues
- You can now: A1, A7 — turn a script into a video with an AI video generator
- You can now: A2, A3 — develop editing standards/guidelines and post-production work plans

© 2026 Tertiary Infotech Academy Pte Ltd

02

TOPIC 02

Improve Video Footage on GenAI-Powered Video Platforms

VEED editing essentials · subtitles & captions · audio enhancement · quality assessment

© 2026 Tertiary Infotech Academy Pte Ltd

COVERS K2 · K3 · A4 · A5

Key Concepts — Topic 2

1

Video editing basics

Trim, split, crop, resize, merge and loop footage on the VEED timeline — no installs, all in the browser.

2

Transcripts & captions

Auto-transcribe speech, generate styled subtitles and closed captions, translate to 100+ languages.

3

Audio enhancement

AI voiceover (text-to-speech), clean audio, background-noise removal and music balancing.

4

Fixing quality issues

Remove cluttered backgrounds, fix framing with smart crop, correct resolution and aspect ratio per platform.

5

Assessing footage

Judge resolution, frame rate, audio levels, visual consistency and pacing against the brief.

6

Technical compliance

Verify the edit meets platform specs and the client's legal and brand requirements before export.

© 2026 Tertiary Infotech Academy Pte Ltd

The VEED Editor at a Glance

1

Timeline

Layer clips, audio, text and images; drag to reorder, snap to cut points.

2

Trim · split · merge

Cut dead air, split takes, merge clips into one sequence.

3

Crop · resize · loop

Smart-crop the subject; one-click resize to 16:9, 9:16, 1:1; loop b-roll.

4

Text & templates

Animated titles, lower thirds, brand kits and thousands of templates.

5

Record

Webcam, screen or both — record straight into the project.

6

Stock library

Royalty-free video, images and music inside the editor.

© 2026 Tertiary Infotech Academy Pte Ltd

ACCESSIBILITY = ENGAGEMENT

Subtitles, Captions & Translation

1

Auto subtitles

AI speech-to-text transcribes your audio in seconds — ~95% accuracy on clean audio.

2

Styled captions

Word-by-word animated captions tuned for muted social feeds.

3

Transcripts

Download TXT/SRT/VTT for accessibility, SEO and repurposing.

4

Auto translate

Subtitles in 100+ languages — one video, global reach.

© 2026 Tertiary Infotech Academy Pte Ltd

AUDIO ENHANCEMENT

The AI Audio Toolbox

1

Text-to-speech

Type a script, pick from 100+ voices and languages, get narration instantly.

2

Clean audio

One click strips background noise, hum and echo from recordings.

3

Music ducking

Keep music ~20% under speech so the voice always wins.

4

Voice consistency

Same AI voice across every video = recognisable brand sound.

© 2026 Tertiary Infotech Academy Pte Ltd

K1 → K2 · THE WA ASKS EXACTLY THIS

Quality Issues → AI Solutions

Issue (K1)	Typical cause	AI solution (K2)
Cluttered background	Filmed at desk / home	Remove background + replace scene
Noisy / muffled audio	Room echo, aircon, traffic	Clean Audio noise removal
Off-frame subject	Static camera, bad framing	Smart crop / reframe
Wrong aspect ratio	One master file for all platforms	One-click resize per platform
Missing captions	No time to transcribe	Auto subtitles + styled captions
Flat delivery	Reading from notes off-camera	AI eye contact correction

WHY IT MATTERS Every issue on the left appears in the Written Assessment — know the matching fix.

© 2026 Tertiary Infotech Academy Pte Ltd

Parameters to Assess Video Quality

1. **Resolution & sharpness**
   1080p minimum for social; no upscaled blur.
2. **Frame rate**
   Smooth, consistent motion — no stutter at cuts.
3. **Audio levels**
   Voice clear above music; no clipping or noise floor.
4. **Visual consistency**
   Colour, lighting and style hold across every clip.
5. **Pacing**
   Cuts match the message rhythm; no dead sections.
6. **Compliance**
   Platform specs, brand rules, licensing, consent.

© 2026 Tertiary Infotech Academy Pte Ltd

WHY A SINGLE FINISHING PLATFORM

Working Across Multiple AI Tools

- Feature compatibility: tools export different resolutions and frame rates — mismatches show at the joins.
- Visual consistency: each tool grades colour and styles transitions differently — the look drifts.
- Audio quality: different loudness handling produces jarring level jumps between segments.
- The fix: finish everything on ONE editing platform (VEED) and export once, per platform.

© 2026 Tertiary Infotech Academy Pte Ltd

WHAT YOU'LL DO

Hands-On Labs — Topic 2

5

Lab 5 — VEED Video Editing Essentials

An edited multi-clip video with text overlays, images and background music, assembled on the VEED timeline.

6

Lab 6 — Auto Subtitles, Captions, Transcripts & Translation

A captioned video with styled, animated subtitles, a downloadable transcript, and a translated subtitle track.

7

Lab 7 — AI Voiceover, Clean Audio & Background Removal

A video with a professional AI voiceover, denoised audio and a clean replaced background.

8

Lab 8 — Mini Project — Assess and Fix Video Quality

A quality-assessment checklist with findings, plus the remediated video that passes your own standards.

© 2026 Tertiary Infotech Academy Pte Ltd

TOPIC 02 · HANDS-ON

VEED Video Editing Essentials

LAB 5

MAPS TO K2 — solutions that rectify quality issues; A4 — review footage for improvement

Master the VEED browser editor: upload or record footage, then trim, split, crop, resize, merge and loop clips on the timeline, add photos, text overlays and music, and start from professional templates.

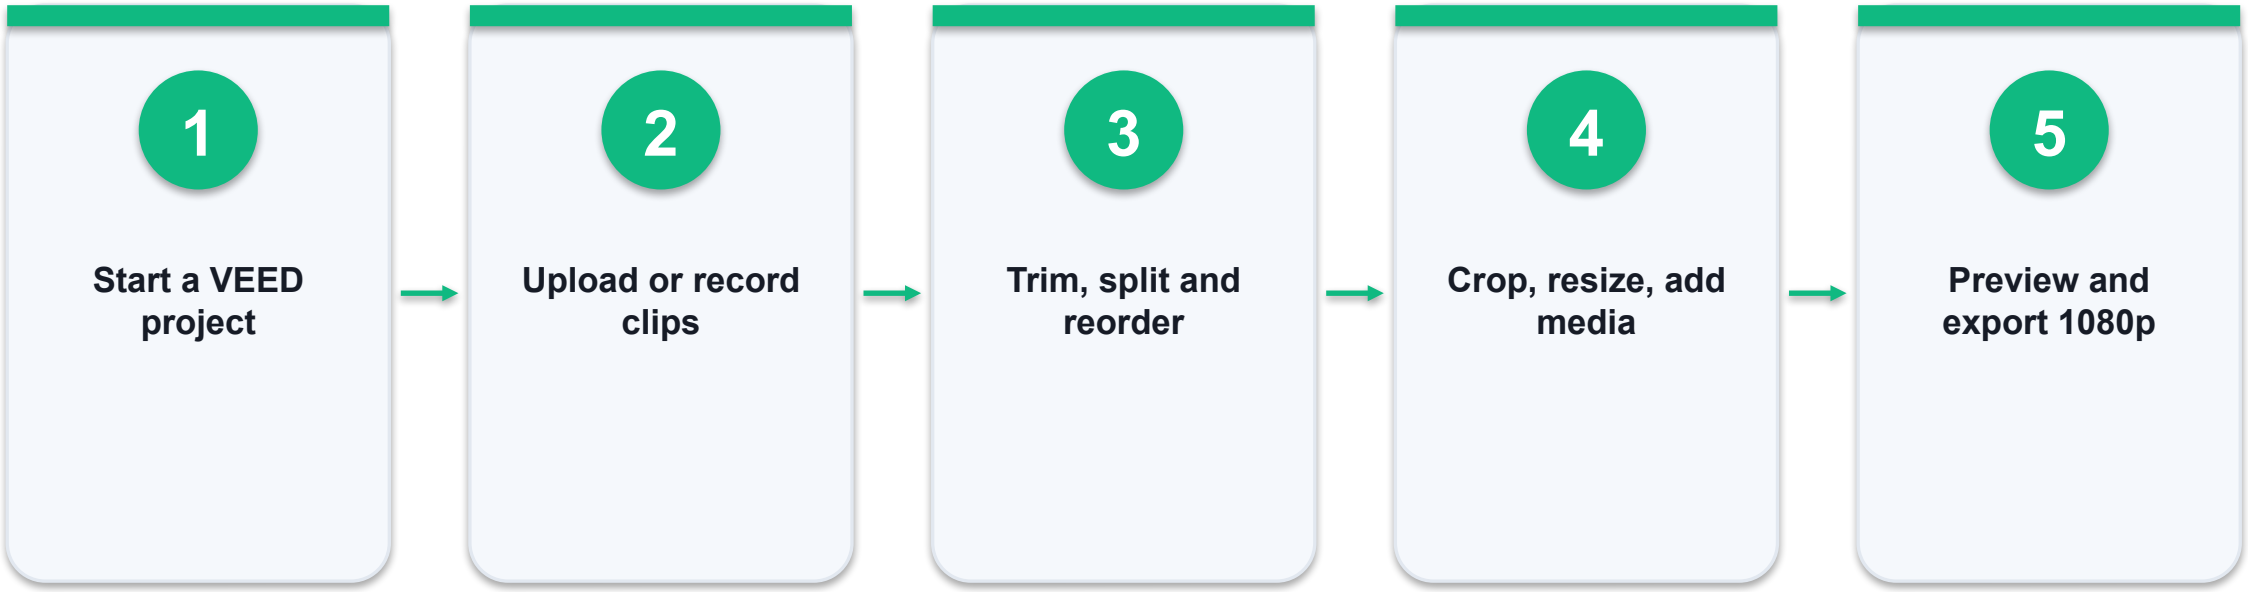

You'll build

An edited multi-clip video with text overlays, images and background music, assembled on the VEED timeline.

Tools: VEED Video Editor (veed.io/create/video-maker)

© 2026 Tertiary Infotech Academy Pte Ltd

How Lab 5 Runs

© 2026 Tertiary Infotech Academy Pte Ltd

Lab 5 — Prompts

PROMPT — ASK AI FOR AN EDIT PLAN

Here is my raw footage list: [describe your clips]. Propose an edit sequence for a 45-second video: which clip opens, where to cut, what text overlays to add, and where the music should swell.

© 2026 Tertiary Infotech Academy Pte Ltd

LAB 5 · VERIFY

VEED Video Editing Essentials

✅ Check your work

The exported video contains at least three clips trimmed and ordered cleanly, a text overlay, an image, and music — with no black gaps or jump cuts on the timeline.

Detailed step-by-step instructions: Learner Guide + the lab folder in labs/.

© 2026 Tertiary Infotech Academy Pte Ltd

TOPIC 02 · HANDS-ON

Auto Subtitles, Captions, Transcripts & Translation

LAB 6

MAPS TO K2, A4 — fix accessibility/quality gaps with AI captioning

Make any video accessible and social-ready: auto-generate subtitles with AI speech recognition, style them as animated captions, download the transcript, and translate subtitles into other languages.

You'll build

A captioned video with styled, animated subtitles, a downloadable transcript, and a translated subtitle track.

Tools: VEED Subtitles & Translation

© 2026 Tertiary Infotech Academy Pte Ltd

How Lab 6 Runs

© 2026 Tertiary Infotech Academy Pte Ltd

Lab 6 — Prompts

PROMPT — POLISH THE TRANSCRIPT

Clean up this auto-generated transcript: fix punctuation and casing, correct obvious mis-transcriptions, and split it into subtitle lines of max 42 characters without breaking phrases.

© 2026 Tertiary Infotech Academy Pte Ltd

LAB 6 · VERIFY

Auto Subtitles, Captions, Transcripts & Translation

✅ Check your work

Captions are accurate and synchronised, styled legibly for mobile, the transcript downloads cleanly, and a second-language subtitle track exists.

Detailed step-by-step instructions: Learner Guide + the lab folder in labs/.

© 2026 Tertiary Infotech Academy Pte Ltd

TOPIC 02 · HANDS-ON

AI Voiceover, Clean Audio & Background Removal

LAB 7

MAPS TO K2 — audio/visual fixes; A4, A5 — review and assess footage

Fix the two problems that sink most videos — bad audio and cluttered visuals. Generate an AI text-to-speech voiceover, clean background noise from recorded audio, and remove or replace a distracting video background without a green screen.

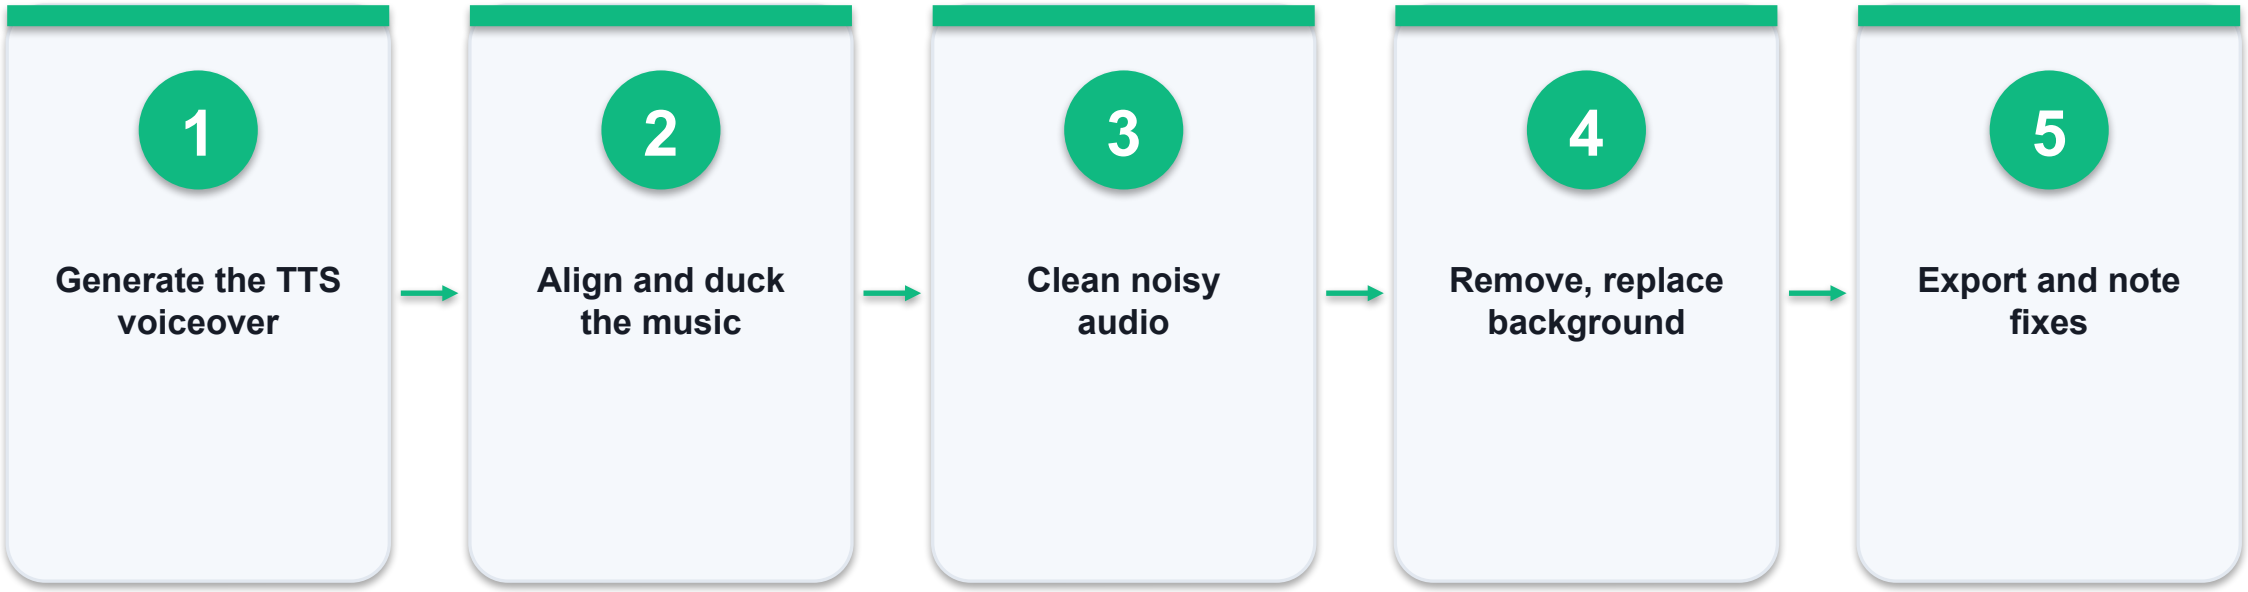

You'll build

A video with a professional AI voiceover, denoised audio and a clean replaced background.

Tools: VEED Text-to-Speech, Clean Audio, Background Remover

© 2026 Tertiary Infotech Academy Pte Ltd

How Lab 7 Runs

© 2026 Tertiary Infotech Academy Pte Ltd

Lab 7 — Prompts

PROMPT — VOICEOVER SCRIPT TONE

Rewrite this script for text-to-speech narration: short sentences, natural spoken rhythm, no brackets or symbols the TTS would read aloud, warm confident tone.

PROMPT — BACKGROUND SCENE

Generate an image: modern minimalist studio backdrop in soft teal gradient, subtle depth, no text, suitable as a video call background.

© 2026 Tertiary Infotech Academy Pte Ltd

LAB 7 · VERIFY

AI Voiceover, Clean Audio & Background Removal

✅ Check your work

The voiceover is clear and correctly timed, background noise is audibly reduced, and the replaced background has clean edges around the presenter.

Detailed step-by-step instructions: Learner Guide + the lab folder in labs/.

© 2026 Tertiary Infotech Academy Pte Ltd

TOPIC 02 · HANDS-ON

Mini Project — Assess and Fix Video Quality

LAB 8

MAPS TO K1, K3, A4, A5, A6 — assess footage against parameters and remediate

Bring it together: assess a flawed video against objective quality parameters (resolution, frame rate, audio levels, consistency, pacing, captions), diagnose its issues, plan remedial actions, and fix it on VEED to meet the standards sheet you wrote in Lab 4.

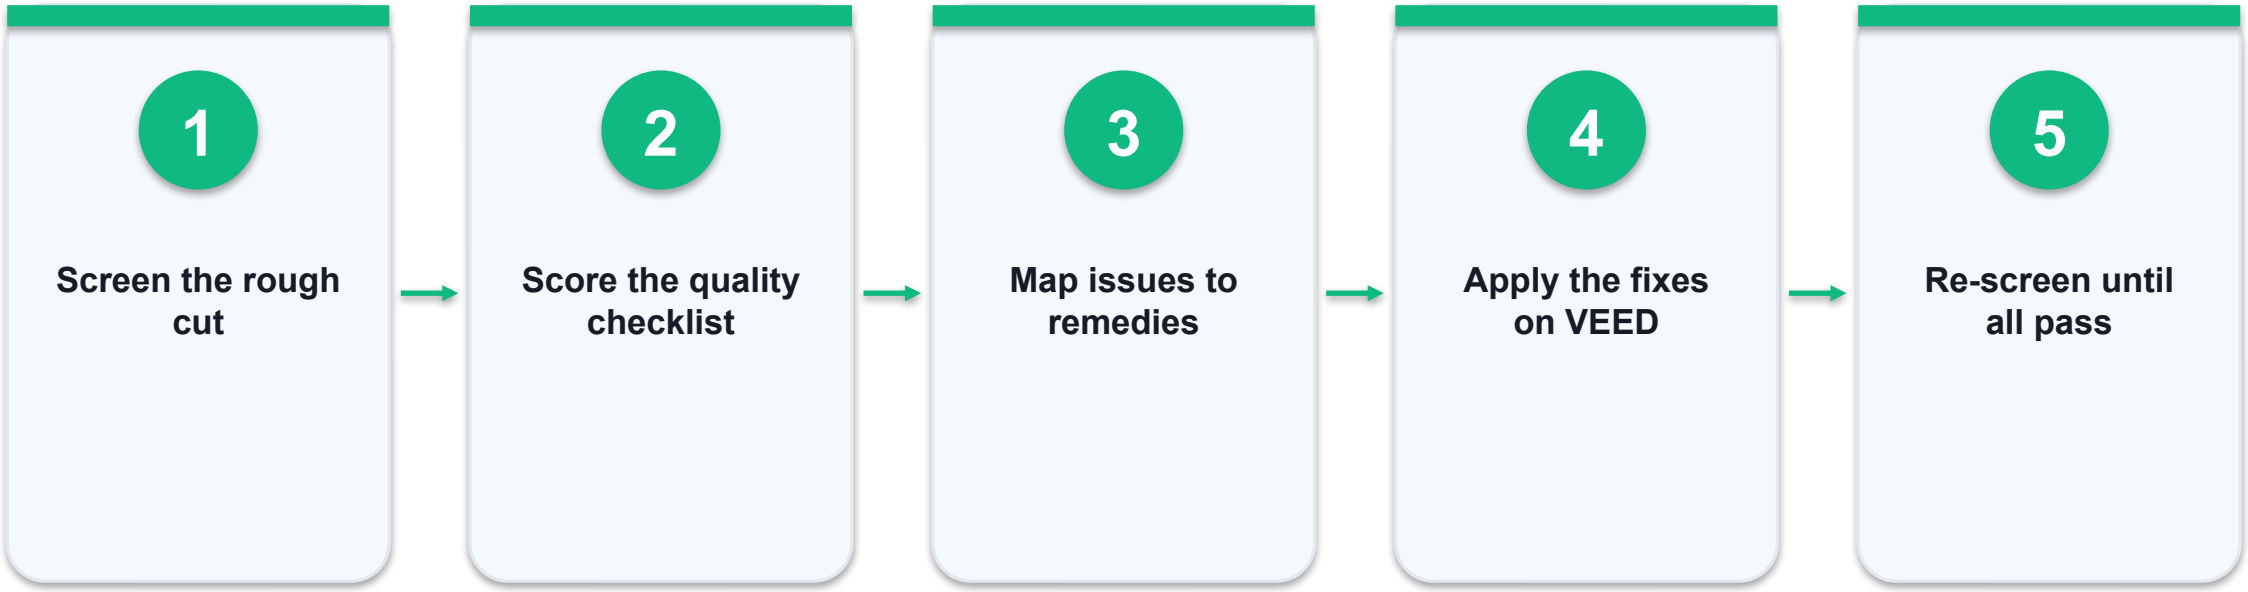

You'll build

A quality-assessment checklist with findings, plus the remediated video that passes your own standards.

Tools: VEED, ChatGPT (assessment checklist)

© 2026 Tertiary Infotech Academy Pte Ltd

How Lab 8 Runs

© 2026 Tertiary Infotech Academy Pte Ltd

Lab 8 — Prompts

PROMPT — GENERATE THE CHECKLIST

Create a video quality-assessment checklist with pass/fail criteria for: resolution, aspect ratio, frame rate, audio loudness and noise, visual consistency, pacing, caption accuracy, branding, and legal compliance. Format as a table I can score a video against.

PROMPT — DIAGNOSE FROM DESCRIPTION

My video has: muffled voice under loud music, captions that lag the speech, and a washed-out opening shot. For each issue, state the likely cause and the fastest fix in an online editor.

© 2026 Tertiary Infotech Academy Pte Ltd

LAB 8 · VERIFY

Mini Project — Assess and Fix Video Quality

✅ Check your work

You can present the scored checklist (before and after), name each issue and its remedial action, and the fixed video passes every parameter including your Lab 4 standards.

Detailed step-by-step instructions: Learner Guide + the lab folder in labs/.

TOPIC RECAP

Recap — Improve Video Footage on GenAI-Powered Video Platforms

- You can now: K2 — solutions that rectify quality issues; A4 — review footage for improvement
- You can now: K2, A4 — fix accessibility/quality gaps with AI captioning
- You can now: K2 — audio/visual fixes; A4, A5 — review and assess footage
- You can now: K1, K3, A4, A5, A6 — assess footage against parameters and remediate

03

TOPIC 03

Apply New AI Technologies to Improve Video Production

AI avatars & visuals · AI music · voice cloning & dubbing · agentic AI publishing

© 2026 Tertiary Infotech Academy Pte Ltd

COVERS K4 · K5 · A6 · A7

Key Concepts — Topic 3

1

AI avatars

Photorealistic talking presenters from text — no camera, studio or actor needed.

2

AI image & VFX

Generate images, remove objects and backgrounds, and enhance shots with AI eye contact.

3

AI music generation

Compose custom, royalty-free soundtracks with Suno and Udio from a text prompt.

4

Voice cloning & dubbing

Clone a voice for narration and dub videos into other languages with lip sync.

5

Agentic AI publishing

Let an AI agent draft titles, descriptions and hashtags, then push the video to YouTube and TikTok.

6

Evaluating new tech

Compare AI tools on quality, cost, speed and rights to decide what enters your pipeline.

© 2026 Tertiary Infotech Academy Pte Ltd

The AI Features in VEED

1

AI avatars

Photorealistic presenters speak your script — 50+ stock or clone yourself.

2

AI image generator

On-brand stills and backgrounds from a text prompt.

3

AI text-to-video

Whole videos from a description (Lab 3).

4

Eye contact

Fixes off-camera gaze so you look at the lens.

5

Voice clone & dub

Your voice, any language, lip-synced.

6

Auto clips

Repurpose one long video into many short ones.

© 2026 Tertiary Infotech Academy Pte Ltd

WHERE AI SPEECH CREATES VALUE

TTS & Voice Cloning — Use Cases

1. **Dubbing & voice-overs**
   Narrate without a studio; dub into any market language.

2. **Brand personification**
   One consistent voice across every touchpoint.

3. **E-learning & audiobooks**
   Turn documents into narrated content at scale.

4. **Accessibility**
   Reading assistance and speech-impairment aid.

5. **Digital avatars**
   Give a face and voice to virtual presenters and agents.

6. **Call centres & IVR**
   Natural prompts without re-recording sessions.

© 2026 Tertiary Infotech Academy Pte Ltd

PICK YOUR AUDIO STACK

GenAI Music & Speech Tools

Tool	Type	Best for	Cost
Suno	Music + vocals	Full songs from a text prompt	Free tier
Udio	Music + vocals	High-fidelity tracks, fine control	Free tier
AIVA / Soundraw	Instrumental	Soundtrack beds by mood/genre	Free credits
ElevenLabs	Speech	Ultra-natural TTS + voice cloning	Free tier
Play.ht / Resemble	Speech	Cloning + API integration	Free trial

WHY IT MATTERS Always check the plan's commercial-use rights before a client project — free tiers often exclude them.

© 2026 Tertiary Infotech Academy Pte Ltd

AUDIO-DRIVEN VIDEO

Lip Sync & Talking Heads

1

VEED dubbing

Translated audio re-synced to the speaker's lips.

2

D-ID

Animate a still portrait into a conversational agent.

3

Sync Labs

Lip-sync any audio onto any face in video.

4

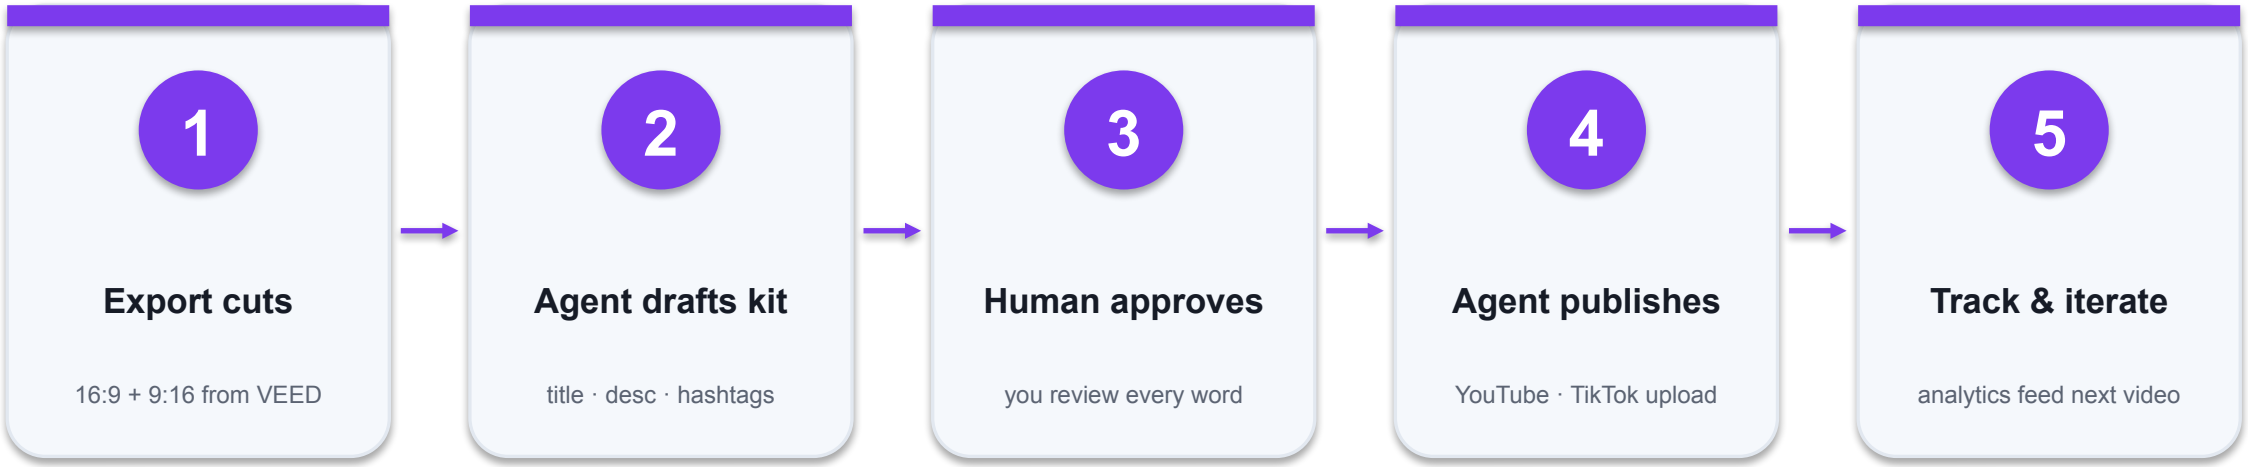

HeyGen / EMO

Audio-driven avatar video from a single photo.

© 2026 Tertiary Infotech Academy Pte Ltd

THE LAST MILE — AGENTIC AI

Agentic AI Publishing Workflow

AUTOMATION WITH A HUMAN GATE

The agent does the busywork — metadata, thumbnails, scheduling, uploads — but a human approves before anything goes live. That's the professional agentic pattern.

© 2026 Tertiary Infotech Academy Pte Ltd

COMPLY BEFORE YOU PUBLISH

Industry Standards & Responsible AI (K4)

1

Platform specs

Resolution, ratio, duration and loudness rules per platform.

2

Copyright & licensing

Only rights-cleared footage, music and fonts — AI output included.

3

Consent & PDPA

Permission for faces and voices; clone only with consent.

4

AI disclosure

Label synthetic media where platforms and law require it.

5

Brand & broadcast codes

House style plus IMDA/ASAS advertising standards.

6

Accuracy

AI hallucinates — fact-check every claim before publishing.

© 2026 Tertiary Infotech Academy Pte Ltd

A REPEATABLE EVALUATION RUBRIC

Evaluating a New AI Tool (A7)

Criterion	Ask	Red flag
Quality	Does output meet your standards sheet?	Artefacts, drift, robotic voice
Speed & cost	Time and $ per finished minute?	Credits burn faster than value
Control	Can you edit/iterate the result?	Black-box, no editing
Rights	Commercial use on your plan?	Licence excludes client work
Integration	Fits your existing pipeline?	New silo, manual re-export

WHY IT MATTERS Use this rubric in Labs 10–12 when you compare Suno vs Udio, clones vs stock TTS, and manual vs agentic publishing.

© 2026 Tertiary Infotech Academy Pte Ltd

WHAT YOU'LL DO

Hands-On Labs — Topic 3

9

Lab 9 — AI Avatars, AI Images & Eye Contact

An avatar-presented video with AI-generated imagery, plus an eye-contact-corrected webcam clip.

10

Lab 10 — AI Music Generation with Suno & Udio

Two AI-composed soundtrack candidates (Suno + Udio) and your video re-scored with the winner.

11

Lab 11 — Voice Cloning, AI Dubbing & Lip Sync

A voiceover in your own cloned voice, and a dubbed version of your video in a second language.

12

Lab 12 — Agentic AI Publishing to YouTube & TikTok

Your video live (unlisted) on YouTube and/or TikTok, published via an agent-assisted workflow with AI-drafted metadata.

© 2026 Tertiary Infotech Academy Pte Ltd

TOPIC 03 · HANDS-ON

AI Avatars, AI Images & Eye Contact

LAB 9

MAPS TO K5, A7 — apply and evaluate new AI production technologies

Produce presenter-led video without a camera: generate a talking AI avatar from your script, create supporting visuals with the AI image generator, and fix off-camera gaze on recorded clips with AI eye contact correction.

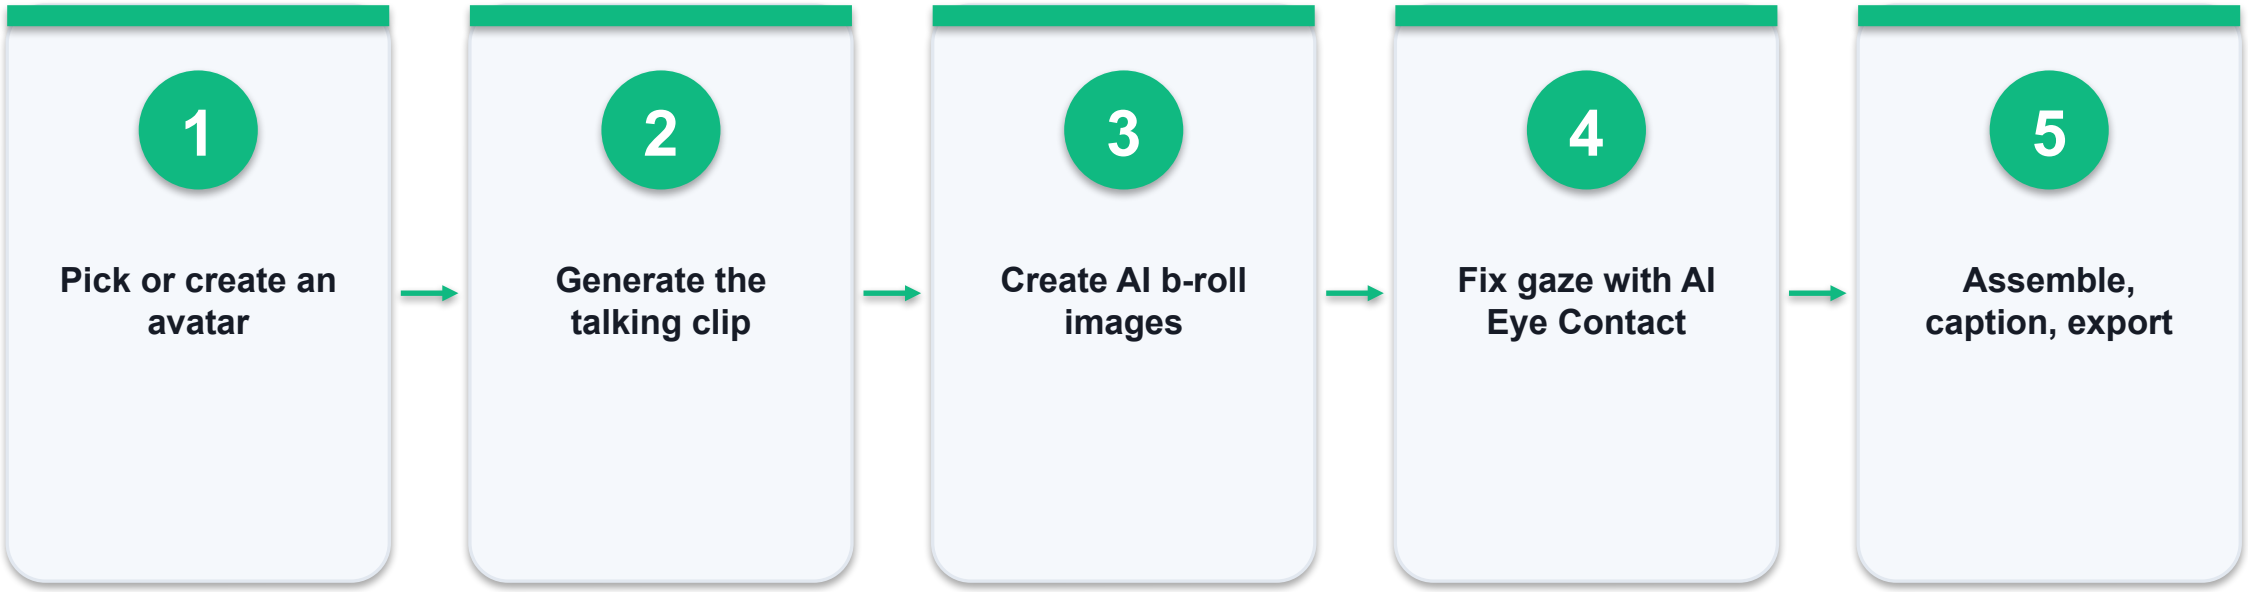

You'll build

An avatar-presented video with AI-generated imagery, plus an eye-contact-corrected webcam clip.

Tools: VEED AI Avatars, AI Image Generator, AI Eye Contact

© 2026 Tertiary Infotech Academy Pte Ltd

How Lab 9 Runs

© 2026 Tertiary Infotech Academy Pte Ltd

Lab 9 — Prompts

PROMPT — AVATAR SCRIPT

Condense this script to a 30-second avatar narration: first person, friendly-expert tone, short sentences with natural pauses, no stage directions.

PROMPT — B-ROLL IMAGES

Generate an image: isometric illustration of a video production pipeline — script, camera, waveform, play button — clean flat style, teal and blue palette, no text.

© 2026 Tertiary Infotech Academy Pte Ltd

LAB 9 · VERIFY

AI Avatars, AI Images & Eye Contact

✅ Check your work

The avatar's lip sync matches the narration, the AI images support the message, and the eye-contact clip looks naturally at camera.

Detailed step-by-step instructions: Learner Guide + the lab folder in labs/.

© 2026 Tertiary Infotech Academy Pte Ltd

TOPIC 03 · HANDS-ON

AI Music Generation with Suno & Udio

LAB 10

MAPS TO K5, A7 — generate custom soundtracks and evaluate the tools

Compose custom, royalty-free music for your videos: write a music prompt (genre, mood, tempo, instrumentation), generate tracks on Suno and Udio, and pick and place the best track under your video with correct levels.

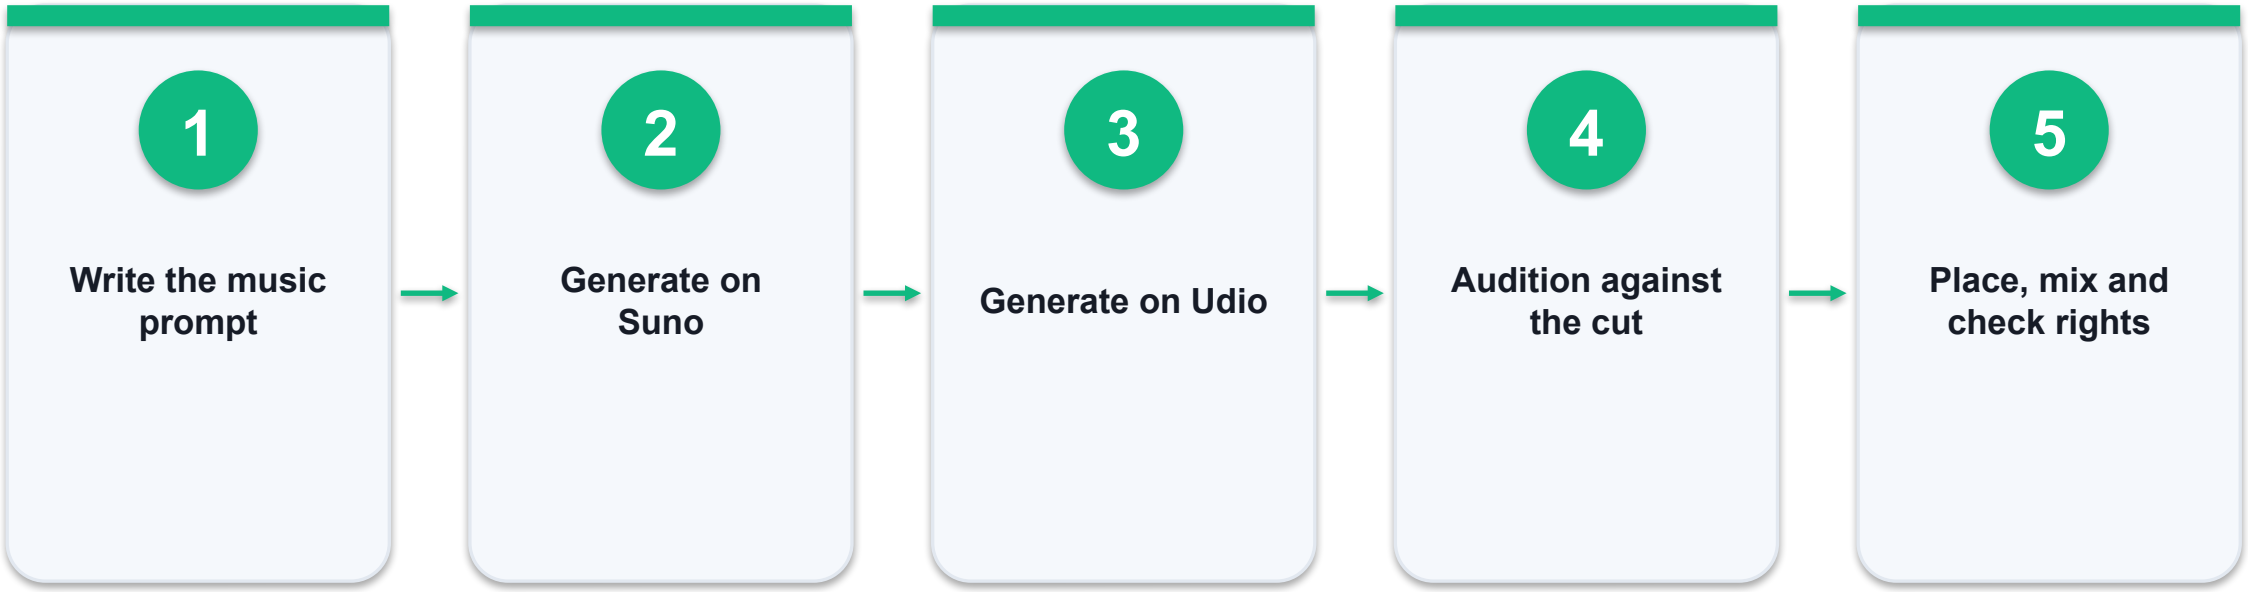

You'll build

Two AI-composed soundtrack candidates (Suno + Udio) and your video re-scored with the winner.

Tools: Suno (suno.ai), Udio (udio.com), VEED

© 2026 Tertiary Infotech Academy Pte Ltd

How Lab 10 Runs

© 2026 Tertiary Infotech Academy Pte Ltd

Lab 10 — Prompts

PROMPT — MUSIC PROMPT

Uplifting corporate pop instrumental, 100 BPM, warm piano and soft synths building to a bright chorus, optimistic and modern, no vocals, 60 seconds, clean ending.

PROMPT — MOOD VARIATION

Same track but calmer: acoustic guitar led, gentle percussion, morning-light feel, suitable under a spoken voiceover.

© 2026 Tertiary Infotech Academy Pte Ltd

LAB 10 · VERIFY

AI Music Generation with Suno & Udio

✅ Check your work

The chosen track matches the video's mood and pacing, sits under the voiceover without masking speech, and you can state its usage rights.

Detailed step-by-step instructions: Learner Guide + the lab folder in labs/.

© 2026 Tertiary Infotech Academy Pte Ltd

TOPIC 03 · HANDS-ON

Voice Cloning, AI Dubbing & Lip Sync

LAB 11

MAPS TO K5, A7 — clone voices, dub languages and evaluate ethics/quality

Give your videos a consistent voice at scale: clone your own voice from a short sample, narrate a script with the clone, then auto-dub a video into another language with translated audio and lip-synced delivery.

You'll build

A voiceover in your own cloned voice, and a dubbed version of your video in a second language.

Tools: VEED Voice Clone & Dubbing, ElevenLabs, Sync Labs / D-ID (explore)

© 2026 Tertiary Infotech Academy Pte Ltd

How Lab 11 Runs

© 2026 Tertiary Infotech Academy Pte Ltd

Lab 11 — Prompts

PROMPT — DUB-READY REWRITE

```
Rewrite this narration for dubbing into Mandarin: avoid idioms and wordplay, keep sentences short, keep brand names in English, target the same 45-second duration.
```

© 2026 Tertiary Infotech Academy Pte Ltd

LAB 11 · VERIFY

Voice Cloning, AI Dubbing & Lip Sync

✅ Check your work

The cloned voice is recognisably yours and pronounces the script cleanly; the dubbed video plays in the second language with acceptable lip sync; you can state the consent rule for cloning.

Detailed step-by-step instructions: Learner Guide + the lab folder in labs/.

© 2026 Tertiary Infotech Academy Pte Ltd

TOPIC 03 · HANDS-ON

Agentic AI Publishing to YouTube & TikTok

LAB 12

MAPS TO A7 — adopt agentic AI to close the pipeline from edit to publish

Close the GenAI video pipeline with an agentic step: export platform-ready cuts, then let an AI agent draft the title, description, hashtags and thumbnail concept, and push the video to YouTube and TikTok — scheduling included — while you stay in review control.

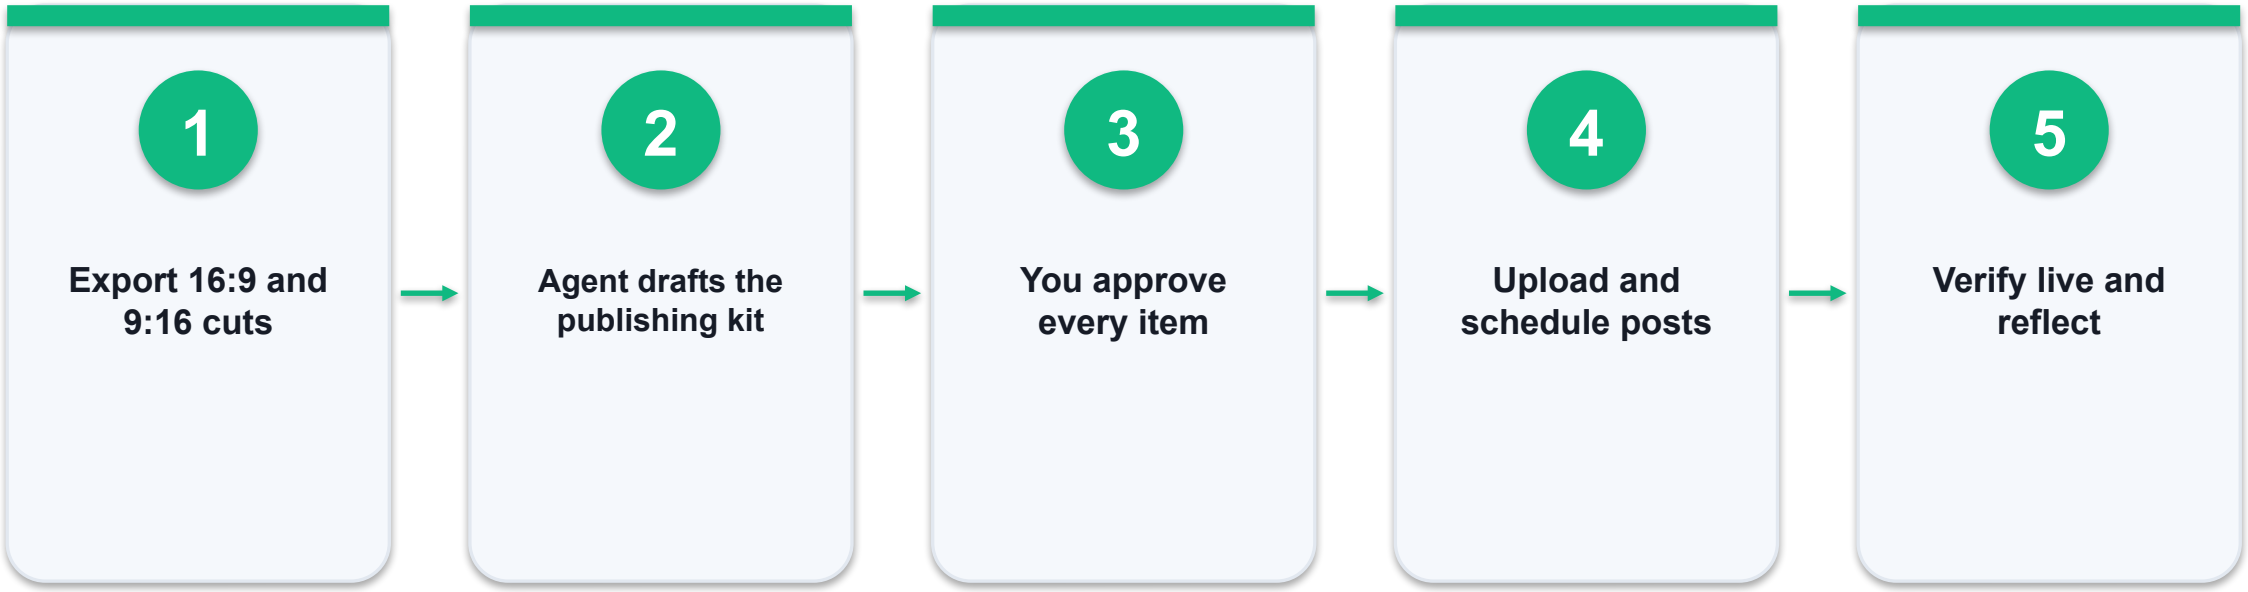

You'll build

Your video live (unlisted) on YouTube and/or TikTok, published via an agent-assisted workflow with AI-drafted metadata.

Tools: VEED export, ChatGPT/Claude (agent), YouTube Studio, TikTok, n8n/Zapier (optional)

© 2026 Tertiary Infotech Academy Pte Ltd

How Lab 12 Runs

© 2026 Tertiary Infotech Academy Pte Ltd

Lab 12 — Prompts

PROMPT — PUBLISHING KIT

You are my publishing agent. For this 45-second video promoting an online learning platform, produce: 3 SEO YouTube title options under 60 characters, a 2-paragraph description with a call-to-action and link placeholder, 10 YouTube tags, a TikTok caption under 150 characters with 5 hashtags, a thumbnail concept (composition, text overlay, colours), and the best posting time for the Singapore audience. Present it as a checklist I can approve item by item.

PROMPT — AGENTIC AUTOMATION SPEC

Design an n8n workflow that: watches a Google Drive folder for a new MP4, drafts YouTube metadata with an LLM node, waits for my approval via email, then uploads to YouTube with the approved metadata and posts the link to Slack. List the nodes and the data passed between them.

© 2026 Tertiary Infotech Academy Pte Ltd

LAB 12 · VERIFY

Agentic AI Publishing to YouTube & TikTok

✅ Check your work

The video is live (unlisted) on at least one platform with agent-drafted, human-approved metadata, and you can describe where the approval gate sits in the agentic flow.

Detailed step-by-step instructions: Learner Guide + the lab folder in labs/.

WRAP-UP

Course Summary & Next Steps

© 2026 Tertiary Infotech Academy Pte Ltd

FROM PROMPT TO PUBLISHED — RECAP

The Pipeline You Now Own

TWELVE LABS, ONE PIPELINE

Scripts (Labs 1–2) → video generation (Lab 3) → standards & plans (Lab 4) → editing & quality (Labs 5–8) → avatars, music, voice (Labs 9–11) → agentic publishing (Lab 12).

© 2026 Tertiary Infotech Academy Pte Ltd

LEARNING OUTCOMES DELIVERED

What You Achieved

1

AI scripts

RICCE prompts, story templates and custom GPTs produce platform-ready scripts.

2

AI video

Text-to-video with VEED and today's frontier models — plus full editor control.

3

AI audio

Voiceovers, cleaned audio, cloned voices, dubbed languages and generated music.

4

Quality & compliance

Assessed footage against real parameters, fixed issues, met standards.

5

Agentic publishing

An AI agent drafts, you approve, it ships to YouTube and TikTok.

6

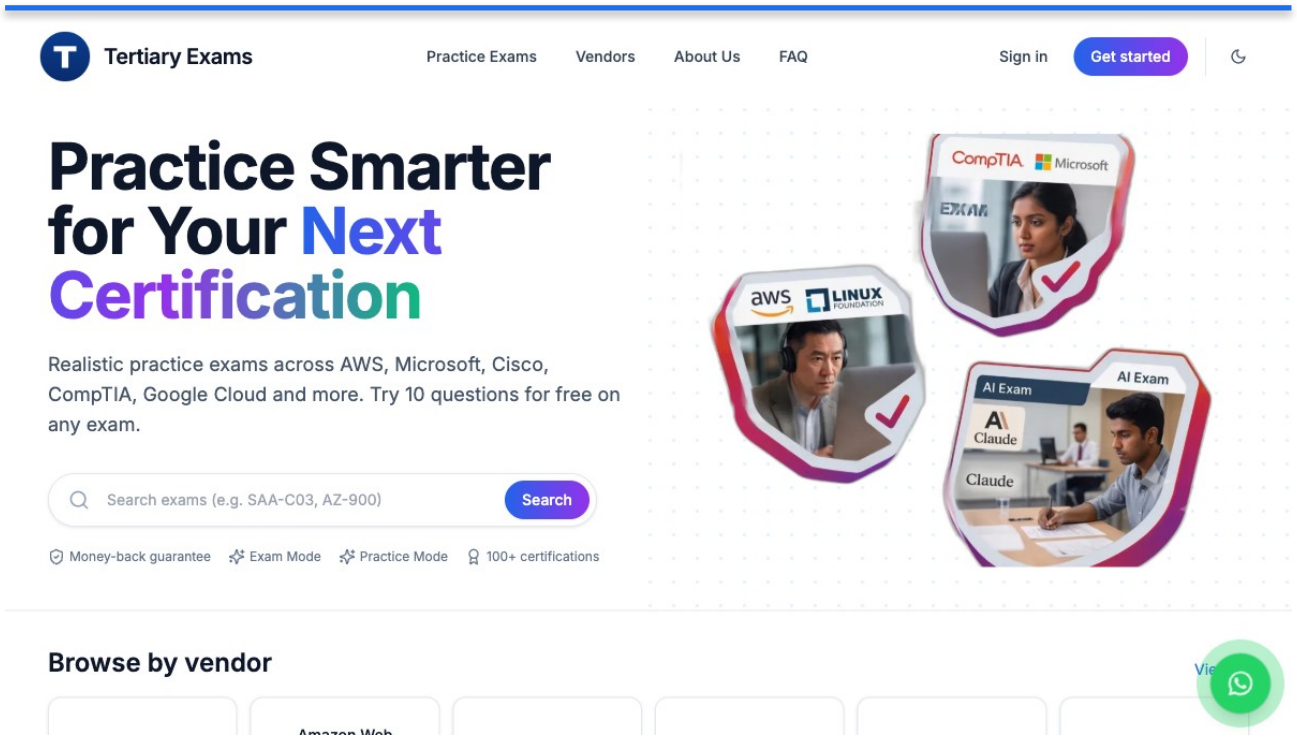

Evaluation skill

A rubric to judge every new AI tool that arrives after this course.

WE'RE HERE TO HELP

Support

- If you have any enquiries during and after the class, contact us:
- Email: enquiry@tertiaryinfotech.com
- Tel: +65 6100 0613
- Web: www.tertiarycourses.com.sg

© 2026 Tertiary Infotech Academy Pte Ltd

BEFORE YOU LEAVE

Cert & TRAQOM Survey (Mandatory)

- Complete the TRAQOM course feedback survey on the LMS — it is mandatory for WSQ funding.
- Your digital certificate is issued on the LMS after you are assessed Competent.
- Portal: https://lms-tms.tertiaryinfotech.com

© 2026 Tertiary Infotech Academy Pte Ltd

FINAL ASSESSMENT

Assessment

- Written Assessment (WA) — Short-Answer Questions (SAQ), 1 hour, open book.
- Practical Performance (PP) — hands-on video-production tasks, 1 hour, open book.
- Open book: slides, Learner Guide and approved materials only.
- Remember to take the Assessment digital attendance.
- Submit your completed answers to the assessor.

© 2026 Tertiary Infotech Academy Pte Ltd

ON ASSESSMENT DAY

Assessment Flow

1. TRAQOM survey — scan the QR code on the LMS
2. Assessment digital attendance — scan the SSG QR
3. Sit WA (SAQ) then PP — open book
4. Submit your answers on the LMS
5. Sign the Assessment Summary Record

© 2026 Tertiary Infotech Academy Pte Ltd

Digital Attendance (Mandatory)

- It is mandatory to take the AM, PM and Assessment digital attendance for WSQ-funded courses.
- The trainer/administrator displays the digital attendance QR code from the SSG portal.
- Scan the QR code with your mobile phone camera and submit your attendance.
- A minimum of 75% attendance is required to be eligible for assessment and funding.

© 2026 Tertiary Infotech Academy Pte Ltd

HAPPY CREATING

Thank You!

You can now take a video from a text prompt to a published post — with AI at every stage and you in control.
