Lab 7 — Fix What Fails: Remedial Actions in Higgsfield

Copy-and-adapt prompts. Click **Copy**, paste into Higgsfield, replace anything in <angle brackets>.

PROMPT 1 — DIAGNOSE THE CUT (SUPERCOMPUTER)

```
Here is my cut and my quality checklist. For every FAIL, give: the issue, the likely
cause, the Higgsfield fix
(Replace Object, Upscale, Reframe, regenerate one shot with the same Elements, or a new
Sound line) and the credit cost.
Order the fixes cheapest first. Table.
```

PROMPT 2 — REPLACE AN OBJECT (GENJUTSU)

```
Replace the orange briefcase in this clip with the black hard-shell case in the
reference image. Keep the hand position, motion, lighting and timing exactly the same.
```

PROMPT 3 — REGENERATE ONE SHOT ONLY

```
Regenerate shot 3 only. Same Elements (@char_biker, @loc_bar-interior), same framing and
timing. Fix: his face must match the reference sheet and the case stays in his left
hand.
```

Draft first: generate on Seedance 2.5 Draft (480p, about 45 credits for 15 s) and finalise only the take you keep (about 240 credits at 1080p).
